GENERAL INFORMATION

The Master of Actuarial Science (Professional) is an innovative and immersive program with an additional 20-week Professional component that combines elements of economics, finance, statistics, data analytics and advanced mathematics to develop techniques for the management of risk and business decision making.

PROGRAM INFORMATION

Optional Specialisation - Students may choose to complete an optional Business Specialisation (40cp) in one of the following areas. Big Data Specialisation, Digital Business Specialisation, Finance Specialisation, Marketing Specialisation, International Business Specialisation, Health Management Specialisation & Tourism and Hotel Management Specialisation

SUBJECT INFORMATION

Students can choose 4 General Elective Subjects (40CP). General elective – A subject that may be chosen from any subject on offer across the University provided requisites, enrolment restrictions and any other faculty requirements have been met. *Please note that the Professional Portfolio or Professional Development subject is a 20-week, 45-credit point subject and is taken in the last semester of the program once all other coursework subjects have been completed. The Career Development Centre will provide assistance in choosing the relevant professional subject prior to your last semester. Please note that ACSC71-304 and a General Elective have been replaced by ACSC71-306 & ACSC71-307 From the September (203) semester.

Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge.
