GENERAL INFORMATION

You are registered into Beyond Bond which is a practical, activity-based program that extends across the duration of all undergraduate degrees.

PROGRAM INFORMATION

The Bond University Bachelor of Biomedical Science/Bachelor of Laws program will equip you with foundational skills in the highly respected areas of science and law. The Bachelor of Biomedical Science (Pre-Health Professional Major) provides you with the ideal undergraduate foundation for a career in the health sciences. The program develops your knowledge in the molecular, cellular, anatomical and physiological processes of the human body and prepares you for graduate entry programs such as medicine and the allied health professions. The Bachelor of Laws prepares students for a career as a legal professional, both within Australia and overseas. It provides students with a thorough grounding in essential areas of substantive law and access to a wide choice of law elective subjects, including the option of completing a specialisation. An integrated skills and professionalism program is embedded in the degree and focuses on core legal skills essential to the practice of law. The Bachelor of Laws provides an engaging learning experience that challenges students academically and prepares them practically for a legal career.

SUBJECT INFORMATION

Students may choose to complete an optional Law Major (60cp) in Climate Law. Please refer to Law Major information for subject options.

Students may choose to complete an optional Law Specialisation (40cp) in one of the following areas:

- Canadian Law and Practice • Climate Law • Contemporary Legal Issues • Corporate and Commercial Law • International and Comparative Law
- Legal Innovation and Technology • Legal Practice

To be eligible for a Law Specialisation, students must complete a minimum of four Law Electives (40 credit points) within one of the above areas.

Eligible students will receive a Specialisation Certificate at the completion of their Law program.

ASSUMED KNOWLEDGE

Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.
