PROGRAM INFORMATION			
<p>The Master of Accounting (MAcc) program is a specialist program for people interested in pursuing a professional accounting qualification. This course incorporates the traditional Master of Accounting program and is designed to provide an opportunity for students with undergraduate training in other fields to gain a professional accounting qualification. The course covers introductory as well as advanced units in financial and management accounting, economics, finance, tax and business law, security appraisal and valuation and auditing. The MAcc offers a firm academic grounding in the accounting discipline and offers a hands-on appreciation of the accounting industry. The program is a powerful amalgam of foundational accounting skills, decision-making, leadership and financial literacy. The course is designed to help develop a student's ability to advise businesses on financial issues. The classes combine theoretical knowledge in accounting with practical insights delivered through case studies, guest lectures and work integrated learning. Session building is encouraged through group projects and communication skills are enhanced through class presentations.</p>			
SUBJECT INFORMATION			
ASSUMED KNOWLEDGE			
<p>Students may have the opportunity to participate in an international study tour experience or internship as a general elective. Those interested should consult an Enrolment Officer in Student Assist for guidance and to check eligibility requirements (e.g., GPA, language proficiency, prerequisites).</p>
