Bondy

[bond-ee]

noun

1. A student or graduate of Bond University.
2. Ambitious and driven.
3. A member of a global, lifelong community.

Ambitious

A big thinker with big ideas and bigger ambitions. Knows that being challenged is the key to growth.

Global view

Open minded and prepared to succeed in new and emerging careers around the world. Embraces inclusiveness and values diversity of others from different backgrounds.

Leader

Displays exceptional leadership skills. Engages positively and constructively in debate.

Innovator

Uses creativity and critical thinking to develop solutions to global and local issues. Sees opportunity in complexity.

Good character

Takes responsibility for their actions and understands the need for personal accountability. Employs integrity, professionalism, and ethical decision-making.

Expert collaborator

Possesses strong interpersonal skills and fosters productive relationships. An effective collaborator who leads and contributes to the outcomes of effective teams.

Connected visionary

Highly employable and ready to step confidently into future opportunities. Has a strong international network to support career opportunities and progression.

Adaptable

A self-aware, self-directed, resilient, and adaptable individual. Can create, think critically, problem solve, and make decisions – enabling success in an uncertain and challenging future.

Ask any Bondy and they'll
tell you that Bond is their
second home.

**YOUR
HOME**

Bond is located on Kombumerri country

The Kombumerri 'Salt Water' peoples' traditional boundaries stretch from the Coomera River down to the Tweed River, and the foothills of the mountains.

As the first people of the region, the Kombumerri lived off the land and the water, with several dialects spoken in this region.

The Kombumerri people and their descendants have looked after this land and its wildlife for more than 20,000 years, and continue to maintain their spiritual connections and traditions today.

Bond University acknowledges the Kombumerri people, the Traditional Owners and Custodians of the land on which the University now stands. We pay our respect to Elders past, present and emerging.

Everyone is welcome here

Bond has earned a reputation for its unique student experience, underpinned by personalised attention in the classroom and in every aspect of life on campus.

There are many ways to get involved in university life through our active on-campus sporting, cultural, academic, recreational and social impact clubs and societies. In addition to finding like-minded people, you'll find opportunities to take on leadership roles, committee positions and volunteering experiences which will help you stand out to future employers.

Offering 300 days of sunshine per year and an average temperature of 29 degrees, Bond is located on the Gold Coast, which is one of the fastest-growing cities in the nation, and the sixth largest. Bond's campus, and the Bond Institute of Health & Sport, are based in Robina, the geographical heart of the city. With public transport links from campus, you are within easy reach of everything the city has to offer, including shopping, dining and entertainment, as well as study and career opportunities.

From world-famous beaches to hinterland rainforest, a vibrant coastal city lifestyle, and abundance of career opportunities, it's the perfect place to blend work, study and leisure.

Embracing global opportunities

You don't have to take a gap year or time out from your degree to see the world – from international industry partnerships and placements to exchange programs, study tours and international competitions, there are a breadth of opportunities to explore at Bond.

Take a study tour

From Hong Kong to Japan to the Solomon Islands, many programs include study tour opportunities to develop real-world global experience.

Go on exchange

Take advantage of more than 80 exchange partnerships in 24 countries, from Western University in Canada, to Loughborough University in the United Kingdom, O.P. Jindal Global University in India and the University of Oslo in Norway.

Participate in international competitions

From participating in the Model United Nations conferences in Japan or New York, to mooting at the International Criminal Court in The Hague.

Join a global alumni network

Bond has an active alumni network of more than 33,000 graduates across 120 countries.

Bond students find a ‘gateway to the world’

As part of Bond University’s overseas study tour offerings, our international relations students have the opportunity to travel to New York City to immerse themselves in diplomacy through the World Federation of United Nations Associations (WFUNA) International Model United Nations (WIMUN) Conference.

The January 2024 cohort got to play tourist in ‘The Big Apple’ as well as demonstrate everything they learned in the classroom, on the international stage. Bachelor of International Relations student Elsie Lamb led Bond’s delegation of five students and they won the Best Small Delegation (University) Award.

“The highlight was networking and getting to know the role diplomacy plays in the field of international relations,” said Elsie.

“At Bond we learn so much about the practical side of things. We practised and trained for four months beforehand. For the opening statement I gave at the UN Assembly Hall, I only found out about that the day before. I spoke in front of thousands of people in Times Square, pretending they were my crowd. We were lifting each other up and helping each other throughout the whole experience. It was truly a team experience, a gateway to understanding what happens in the world and something that I will definitely take forward into my career.”

Nurturing your ambition

As an independent, not-for-profit university, all tuition fees are reinvested into our students' education, opportunities and experiences. It's why Bond is able to provide an array of dedicated services and initiatives to provide you with every opportunity to succeed and thrive.

Career

Lifelong access to career coaching and development services via Bond's dedicated Career Development Centre.

Study

Our small class sizes ensure personal mentorship from your academics and the Academic Skills Centre provides one-to-one tutoring and academic workshops.

Wellbeing

Dedicated wellbeing advisors and support staff, plus access to bulk-billed onsite medical centre and counselling, looks after your physical, mental and emotional health.

Accessibility and inclusion

Access to a personal Accessibility and Inclusion Advisor to support any specific needs while you are at university.

First Nations

Bond's Nyombil Centre facilitates engagement with Country and community and supports our First Nations students.

Student clinics

Every day, Bond students are supporting the local community through providing accessible allied health and legal services through our on-campus clinics. The clinics, supervised by qualified and experienced staff, are supported by students who gain valuable industry experience in a professional clinic environment.

Bond University Health and Wellness Clinic

Based at the Bond Institute of Health and Sport, the Bond University Health and Wellness Clinic is an interdisciplinary, teaching clinic offering services in psychology, physiotherapy, nutrition and dietetics and occupational therapy.

Bond Law Clinic

The Bond Law Clinic, an incorporated legal practice, provides free legal advice to the community while offering Bond Law students invaluable hands-on experience. As part of the Faculty of Law's Legal Clinics Program, the Clinic ensures every student works alongside experienced lawyers, delivering on Bond Law's Practical Legal Experience Guarantee.

Transformer

Transformer is an Australian-first, fee-free entrepreneurship program, open to all Bond students.

Based in a dedicated workspace, Transformer provides access to personal coaching and mentorship from industry leaders, Bond academics and alumni, as well as complimentary masterclasses and showcases providing networking opportunities.

Transformer also provides financial support through seed grant funding, including a commitment of \$100,000 in funding to Transformer student and alumni initiatives over three years.

Sport at Bond

Sport at Bond is more than competition – it's part of who we are. Whether you're here to play, compete, or coach, we offer development opportunities at every level through world-class coaches and partnerships in sports academia and research. Unleash your potential and join Bond's sporting legacy.

Learn from the best

Our elite coaching team features Olympic champions, national award-winners, and All Blacks. Chris Mooney, a dual Swimming Australia Coach of the Year for 2024, leads our swimming program. AFL is guided by former AFL player and Queensland coach Andy Lovell, while Bond netballers train under Queensland title-winning coach Rebecca Stower. Our rugby program boasts Mick Heenan, Queensland Premier Rugby's most successful coach, and All Black legend Rico Gear.

State-of-the-art facilities

Bond's world-class facilities, including an Olympic-standard Aquatic Centre, multi-sport fields, and high-tech Esports Hub, cater to elite athletes, community teams, and sports enthusiasts alike. These venues host national teams and provide an ideal environment for growth and excellence.

Sport clubs

As a Bond Bull Shark, you'll experience camaraderie and achievement, competing in UniSport Nationals across over 20 sport clubs. Bond fields teams in swimming, rugby, AFL, netball, tennis, equestrian, and esports, all with a focus on the student-athlete experience.

Bond Elite Sport Program

Through the Elite Sport Education Network, part of the Australian Institute of Sport, Bond supports elite athletes with flexible study loads and tailored support, enabling them to thrive in both academics and sport.

YOUR DEGREE

These experiences will
set the course for your
future career success.

3

Accelerate your ambition

Bond's three-semester-per-year timetable means you'll finish your degree sooner and be earning an income up to a year ahead of graduates from other universities.

UNIQUE TO BOND

Every undergraduate Bond student completes a professional development program and core curriculum, embedded into every degree. Exclusive to Bond, these initiatives help you develop your capabilities, discover your passions, enhance your skills, and stand out in a competitive career environment.

Core Curriculum

Bond's Core Curriculum comprises three subjects that all students across degrees and disciplines complete during their degree. From learning how to evaluate, use evidence and communicate effectively, to unpacking your values and the relationship between character and responsive action, to using collaboration to tackle the world's problems, the Core Curriculum is an eye-opening and transformative experience for many Bondies.

Beyond Bond

It's never too early to start preparing for your career. Beyond Bond is a personalised, professional development program, exclusive to all undergraduate students, that prepares you for the transition from campus to career. Engage in academic, professional, and extra-curricular experiences to build and demonstrate your employability; and showcase these skills with a professional portfolio. You will track your progress with a personalised dashboard to which you will have lifelong access.

Your degree decoded

There is a lot of terminology that comes with tertiary study. Here's a handy glossary to help you navigate your next steps.

Entry requirements

Admission to a bachelor's degree is based on Year 12 academic results (ATAR, IB or equivalent) or on the completion of a recognised pathway program. In 2020, the Australian Tertiary Admissions Rank (ATAR) replaced the Overall Position (OP) as the primary tertiary admissions factor for Queensland Year 12 students.

Bachelor's degrees

A bachelor's degree is an undergraduate award of 24 subjects which is commonly the entry qualification required for many professions or further study. Most subjects have a value of 10 credit points (cps).

Ultimately, successfully completed subjects will need to total 240cps for a standard bachelor's degree. Exceptions include the Bachelor of Laws and the Medical Program[^].

Prerequisites

Some Bond University programs require students to have completed specific subjects, known as prerequisites, to be eligible for entry. These may have been completed in high school or a pathway program such as a diploma. Please refer to individual program listings for more information.

Diplomas

Diplomas are non-degree offerings. A diploma can also be completed as a pathway for students who do not meet the academic requirements for direct entry into their chosen bachelor's degree.

Majors, minors and double majors

A major is a cluster of six subjects selected from one area of specialisation, a minor is four subjects, and a double major is 12 subjects. Depending on your program, a major, minor or double major can provide an opportunity to pursue a complementary interest area.

[^] The Medical Program is comprised of two sequential degrees -- the Bachelor of Medical Studies and the Doctor of Medicine. Applications for the Medical Program must be lodged through QTAC.

~ Diploma programs provide an admission pathway for a number of our bachelor's degrees. Please refer to page 90 for more details.

* Entrance scores are only indicative and are subject to change for 2026 entry. Applicants will require a comparable score to be considered for admission into our bachelor's programs. Applicants who do not meet this minimum entry score will instead be considered for admission into a Bond University College pathway program. In addition to our minimum admission requirements, some of our bachelor's programs may require a higher minimum entry score, the successful completion of subject prerequisites, and/or additional selection criteria relevant to that specific program. 'IB' refers to a score granted upon completion of the International Baccalaureate (IB) Diploma program.

** Students with a minimum ATAR of 65 may be considered for admission based on the merit of their portfolio.

° Prerequisites are required for entry into these programs. Please refer to individual program listings for details.

^ The Medical Program is comprised of two sequential degrees - the Bachelor of Medical Studies and the Doctor of Medicine. Applications for the Medical Program must be lodged through the Queensland Tertiary Admissions Centre (QTAC).

Actuarial science and data analytics

Thomas Hauck

ELITE SWIMMER. RESEARCH ASSISTANT.
BACHELOR OF ACTUARIAL SCIENCE STUDENT.

I chose to study actuarial science because I have always enjoyed maths and problem solving, so I knew I wanted to apply those skills in my career. For me, actuarial science provides the perfect mixture of these skills and practical applications.

At Bond I have been able to make connections with my academics and gain valuable experience as a research assistant in the Centre for Data Analytics. This has already led to multiple job opportunities and given me a head start in my career.

My advice to high school students is talk to an expert! Whether it's speaking with a current student, taking a campus tour or meeting academics directly, there are so many people at Bond who are willing to introduce you to the University and help you make your decision.

[Learn more](#)

BACHELOR OF ACTUARIAL SCIENCE

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 083205M	90 / 32	Jan, May, Sep	6 semesters (2 years)	\$17,840

Do you love maths? Solving puzzles? The Bachelor of Actuarial Science (CRICOS 083205M) could be for you. Actuarial Science is the most mathematically based degree offered by Bond Business School. Its foundation is in theoretical maths skills - especially probability theory - but Actuarial Science is about using maths as a mode of thinking and being able to discern which theory of maths to apply to certain situations.

Actuaries are most well known for their involvement in insurance and superannuation, but actuaries exist in any business where quantitative risk is involved. For example, actuaries could find employment anywhere from the treasury, through to investment banking, hedge funds, or mergers and acquisitions.

Maths B is a compulsory entry requirement for this degree.

Key features

- Study at one of seven universities in Australia and the only university in Queensland to be accredited by the Actuaries Institute.
- Gain an internationally recognised Bloomberg certification used in the finance and banking sectors.
- This program provides Part 1 (Foundation Program) accreditation by the Actuaries Institute.

Majors / specialisations

- Accounting
- Data Analytics
- Economics
- Entrepreneurship and Innovation
- Finance
- International Business
- Management
- Marketing Communication
- Marketing
- Tourism and Hotel Management

Professional outcomes

- Actuary
- Business Analyst
- Data Scientist

BACHELOR OF ACTUARIAL SCIENCE (HONOURS)

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 086364E	See above ^	Jan, Sep	2 semesters (8 months)	\$22,200

Corporations have access to more data than ever, so they need skilled professionals to help analyse and harness it to make better business decisions. Bond's Bachelor of Actuarial Science (Honours) (CRICOS 086364E) will equip you with the data-crunching skills to form solutions to various business problems.

In this Honours program, you will complete all the necessary Part II (Actuary Program) subjects, including two online units, to be accredited as an actuary by the Actuaries Institute. This sets this program apart from the Bachelor of Actuarial Science, which only provides Part I accreditation and does not qualify you to become a practising actuary.

Key features

- Study at one of seven universities in Australia and the only university in Queensland to be accredited by the Actuaries Institute.
- Gain an internationally recognised Bloomberg certification used in the finance and banking sectors.

^ To be considered for entry, students must achieve an average minimum score of Credit in a relevant undergraduate degree.

BACHELOR OF DATA ANALYTICS

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 116378B	80 / 28	Jan, May, Sep	6 semesters (2 years)	\$17,840

As the name suggests, the Bachelor of Data Analytics (CRICOS 116378B) focuses on the application of data to drive better business outcomes. Data analysts or data scientists use data to predict the likely outcome of a situation, using data science to maximise profits and improve business efficiencies. Data scientists are sought-after in all industries. They're even needed in the health industry, where data science could inform how we manage hospital waiting rooms or operating theatres more efficiently. Prospective Data Analytics students aren't necessarily mathematicians. But they're problem solvers, may have computational and programming skills, and might even have a scientific background.

Minors

- Accounting Analytics
- Economic Modelling and Analysis
- Health System Analytics
- Marketing Analytics
- Psychometrics
- Quantitative Finance
- Sport Analytics

Professional outcomes

- Business Analyst
- Data Scientist
- Statistical Consultant

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Postgraduate study

Bond Business School also offers a range of postgraduate programs in actuarial science.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Actuarial Practice	Jan, Sep	6 semesters (2 years)	\$16,550	108630F
Master of Actuarial Science	Jan, May, Sep	4 semesters (1 year 4 months)	\$16,800	108628M
Master of Actuarial Science (Specialisation)	Jan, May, Sep	6 semesters (2 years)	\$16,823	108629K

ACTUARIAL SCIENCE AND DATA ANALYTICS

SPOTLIGHT ON:

The FinTech Hub

Providing students with financial training and services, the Bond FinTech Hub is a cutting-edge on-campus facility. It's made up of three rooms – the Trading Room, the Dealing Room and the Clearing House – two of which are equipped with a collective 40 Bloomberg Terminals, more than any university in Australia.

Students across finance, data analytics, actuarial science and other disciplines regularly have class in the FinTech Hub, where they'll learn how to execute deals, manage portfolios, trade financial securities and adapt to changing market conditions.

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

A cause close to home

Forest devastation fuels researcher's pursuit to promote energy justice

The local devastation caused by deforestation is close to home for Bond University Assistant Professor of Economics Alex Acheampong. Remnants of the lush forests his grandma described as once surrounding their village (now a town) in Ghana dwindled as Dr Acheampong grew up.

"It was greener. In the villages, they described a lot of trees and bushes but those have all disappeared. Now, it's not like it used to be even in the early 2000s. It's really sad."

The deforestation that Dr Acheampong describes of the area he grew up in, in Ghana, in sub-Saharan Africa, was in part caused by urbanisation and the reliance on forest resources for energy. About a third of the world's population depends on woodfuel and other biomass as sources of energy. And dependence on woodfuel, the cheapest form of energy, is highest in Africa where about 63 per cent of the population uses it.

This reliance on woodfuel has not only led to endangering biodiversity in the local communities, but endangering the world through its impact on climate change. Dr Acheampong has joined the global race against climate change to prevent the escalation of devastation he saw in his own backyard.

Using advanced economic techniques, Dr Acheampong examines the potential impact of bridging the infrastructure gap between rural and urban areas, policy strategies, and the role that democratic systems play in these relationships.

Read more about
Dr Acheampong here

Architecture

Elizabeth Sammut

CREATIVE. EXCELLENCE SCHOLAR.
CHANGE-MAKER.

I chose to study a Bachelor of Design in Architecture because I want to learn how to create comfortable and beautiful spaces for people and I am interested in discovering new ways to help deal with changes in climate and populations.

My favourite thing about my program is the opportunity to work closely with, and learn from, many experienced architects.

It is amazing that I am known by name by all my tutors, which allows them to better support and encourage me through my studies.

BACHELOR OF DESIGN IN ARCHITECTURE

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 0101291

75^ / 26

Jan, May, Sep

6 semesters
(2 years)

\$17,840

Architects are responsible for envisioning and creating the world around us, from the smallest of dwellings through to complex megacities. The Bachelor of Design in Architecture provides a broad education in design, planning, construction, technology, and communication in a creative studio-based environment. Students are encouraged to grow their design skills through a hands-on approach to the curriculum and access to state-of-the-art digital tools.

This program provides the foundation for careers in a range of design and creative practice fields, with a specialisation in the discipline of architecture. To practise as an architect in Australia, graduates must complete further study.

Key features

- Use state-of-the-art technology including 3D printers, laser cutters, CNC routers, and industrial robots.
- Study in small classes and a dedicated studio environment.
- Learn from industry-leading architects through tutorials, critiques, competitions, and the Architecture Lecture Series.
- Participate in our annual Design Charrette.
- Gain theoretical and practical experience in design, problem solving, construction, and communication that can be applied to a wide range of careers.

Further study

- Graduate Diploma in Architecture (CRICOS 0101412)
- Master of Architecture (CRICOS 078184J)

Professional outcomes

- Architectural drafting
- Building design
- Interior and spatial design
- Project architecture
- Urban planning

Postgraduate study

To become a registered architect, you are required to complete both an undergraduate and postgraduate qualification as well as requisite work experience. Graduates of the Bachelor of Design in Architecture program may progress to the Master of Architecture (CRICOS 078184J) upon application and review of undergraduate performance. However, entry to the Master of Architecture is not automatic.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Architecture	Jan, Sep	4 semesters (1 year 4 months)	\$22,595	078184J
Graduate Diploma in Architecture	Jan, May	2 semesters (8 months)	\$21,760	0101412

Professor Paul Loh

INTERNATIONALLY RECOGNISED ARCHITECT, RESEARCHER, AND INNOVATOR. HEAD OF THE ABEDIAN SCHOOL OF ARCHITECTURE.

"Our open-plan studio-based culture emulates a real-world contemporary architecture office environment where students are encouraged to collaborate, experiment, test, and prototype ideas, integrating technical skills with critical thinking and disciplinary knowledge. The ethos of learning-through-making is core to our teaching. In this setting, we educate and nurture the future generation of architects, designers, and practitioners who will lead and shape our profession and impact our built environment."

RMIT University and Architectural Association graduate

University of Melbourne Research Impact and Industry Collaboration and Innovation Award recipient

Multiplex Research Program Award winner

Wakeford Hall Competition first prize winner

Business, commerce and entrepreneurship

Jarrad Norton

BUSINESS STUDENT.
ENTREPRENEUR. ROWER.

I started studying at another university, but switched to Bond because of the strong university experience and community.

If I were to give my 16-year-old self any advice, I would tell myself to be fearless and comfortable in standing out, and to do everything with a full heart.

The best part of my Bond experience has been all the connections I have made. We all push each other for growth and success, and every single academic I've had has given 110 per cent and sincerely cared for their students.

BACHELOR OF BUSINESS

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063055G	65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

Prepare yourself for leadership roles in today's global businesses with Bond's Bachelor of Business. This comprehensive, multidisciplinary program will prepare you to work in varied business environments.

Bond's three-semester-per-year study schedule means you will complete your qualification in just two years and emerge ready to take on your industry of choice. During your studies, you will design and run a real business by applying the entrepreneurial, leadership, and teamwork skills developed across your subjects. This fundamental exercise is just one of the practical elements that make Bond's Bachelor of Business an excellent foundational course for the modern world of business.

Key features

- Receive personal mentorship through the Bond Business Mentoring program, where you will be supported by a network of academic staff, senior students, and alumni.
- Enjoy unrivalled access to state-of-the-art learning resources including the Bond FinTech Hub, Commercialisation Centre, Centre for Data Analytics, and Transformer.
- Learn from experienced academics and industry practitioners from a diverse range of business backgrounds.
- Gain an internationally recognised Bloomberg certification used in the finance and banking sectors.

Further study

- Doctor of Philosophy (CRICOS 063150J)
- Master of Accounting (CRICOS 063115A)
- Master of Actuarial Science (CRICOS 108628M)
- Master of Business (CRICOS 063119G)
- Master of Business Administration (CRICOS 108627A)

BACHELOR OF COMMERCE

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063059D	65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

Students who choose a Bachelor of Commerce may not know exactly which area of business they ultimately want to work in, but they want to gain a broad and comprehensive knowledge of the fundamentals needed to succeed in a wide range of sectors without limiting their prospects to any single discipline. This degree is particularly valuable in learning the essentials that underpin business success in key areas of accounting, finance, economics, business law, and quantitative analysis, as well as critical skills required for problem-solving and communication – which are so important in today's dynamic business environment.

Bachelor of Commerce students will become key players in the strategic performance of all types of enterprises through a curriculum based around experiential learning and authentic assessment tasks relevant to the choice of major, with options including Accounting, Actuarial Science, Big Data, Economics and Finance.

Key features

- Gain an internationally recognised Bloomberg certification used in the finance and banking sectors.
- Complete an optional business internship as an elective subject.

Majors / specialisations

- Accounting
- Actuarial Science
- Data Analytics
- Economics
- Finance

Professional outcomes

- Stockbroker
- Management accountant
- Auditor
- Data analyst
- Finance specialist
- Economist

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

BACHELOR OF ENTREPRENEURIAL TRANSFORMATION

Selection rank ATAR / IB* Starting Duration Fees per semester**

CRICOS course code 107658B

65 / 24

Jan, May, Sep

6 semesters (2 years)

\$17,840

Entrepreneurialism is the skill of the future – the world of business is craving creative, innovative, and progressive approaches to traditional industry problems. With an emphasis on agility, the Bachelor of Entrepreneurial Transformation builds these attributes from the ground-up. The program is for anyone wanting to take the reins in their chosen industry and drive tangible change.

Throughout the program, students will learn to design transformative solutions to diverse global challenges. This program consists of discipline studies in entrepreneurial transformation and transdisciplinary studies in design thinking, law, technology, and global citizenship as well as industry immersions and tailor-made major projects.

Key features

- Apply skills, knowledge, and language to entrepreneurial mindsets across multiple sectors in the face of rapid and persistent technological change.
- Lead and manage transdisciplinary teams and projects with industry partners.
- Use design thinking to solve problems, harness information, and facilitate informed decision-making.
- Apply sound moral reasoning and appropriate legal and ethical judgment in diverse situations.

Professional outcomes

- App or platform development
- Business development consulting
- Business transformation
- Digital or social media marketing
- Industry disruption and innovation
- Intrapreneurship
- Program, project or partnerships management
- Start-up entrepreneurship

BACHELOR OF INTERNATIONAL HOTEL AND TOURISM MANAGEMENT

Selection rank ATAR / IB* Starting Duration Fees per semester**

CRICOS course code 063584E

65 / 24

Jan, May, Sep

6 semesters (2 years)

\$17,840

With more than 12 million visitors annually, there is no better place to study hotel and tourism management than the Gold Coast.

Bond's Bachelor of International Hotel and Tourism Management will prepare you for professional roles in the global tourism and hotel industries. You will develop the knowledge and skills required by managers in modern hospitality and tourism businesses with special emphasis on hotel, tourism and event operations, sustainable tourism, tourism industry analysis, revenue management, and human resource management.

In this degree there is a strong emphasis on experiential learning through field trips, industry experience, internships, and real-life case studies.

Key features

- Undertake industry projects and internships with international tourism organisations like Marriott, Accor, Hilton, InterContinental, and Wyndham.
- Receive personal mentorship through the Bond Business Mentoring program, where you will be supported by a network of academic staff, senior students, and alumni.

- Benefit from working in small groups with dedicated teachers who bring a wealth of international experience to the classroom.
- Enjoy unrivalled access to state-of-the-art learning resources including the Bond FinTech Hub, Commercialisation Centre, Centre for Data Analytics, and Transformer.

Majors / specialisations

- Entrepreneurship and Innovation
- International Business
- Management
- Marketing
- Marketing Communication

Professional outcomes

- Event management
- Guest experience management
- Revenue management
- Venue and facilities management

BACHELOR OF SPORT MANAGEMENT

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 096558A	65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

Whether you're an elite athlete, a casual competitor, or a keen spectator, you can turn your love of sport into a dream career with Bond's sport-focused degrees. This is the perfect chance to position yourself for a role at the 2032 Brisbane Olympic Games! A Bachelor of Sport Management combines the core business fundamentals of management, marketing, negotiation, and human resources, with sports-specific skills in event management, sponsorship, public relations, governance, and sport law. Studying Sport Management at Bond Business School is a dynamic, hands-on experience, working in small, personalised classes with teachers who know the business of sport from the inside. They don't like being confined to the classroom any more than you do and will have you working on events, with local and national sport organisations, with high performance athletes and professional sporting teams.

You will get the best of both worlds as a Bond Business School student, with access to the Centre for Data Analytics, the Bond Business Mentoring Program and Transformer.

Key features

- Practical experience on and off-campus through internships, work placements and event volunteering. Gain exposure to national and international sporting organisations such as Australian rules football, the rugby codes, WSL and a variety of Olympic and other sports based on the Gold Coast.
- Learn from experienced academics and industry practitioners from a diverse range of sporting and business backgrounds.

Professional outcomes

- Commercial partnerships
- Sport development
- Sport marketing
- Community sports

DIPLOMA OF BUSINESS

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 078663E	50	Jan, May, Sep	2 semesters	\$17,840

The Diploma of Business equips students with a broad foundation for further study in business, or to begin work in the corporate sphere. Skills covered include managing teams, leadership, group communication, conflict resolution, problem solving, individual and group decision making, information management, and ethics.

Throughout the Diploma of Business, you'll learn in supportive classes as you develop these skills. Once complete, the transition from the Diploma of Business to the third semester of a relevant bachelor's degree at Bond is a seamless one, as you will have a strong understanding of the University and be a core part of our community.

Key features

- Integrate into the Bond University environment from day one.
- Enjoy the support of extra tutorials just for diploma students.
- Articulate into the third semester of an approved Bond undergraduate degree.

Further study

Successful completion of the Diploma of Business guarantees you a place in an approved Bond University bachelor's degree with 80 credit points towards your new program. The Diploma of Business can also be used as a pathway into other non-cognate bachelor's degrees with varying credit available.

Postgraduate study

Through the Bond Business School, students can go on to study a range of postgraduate programs in business, management, accounting, finance and more.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Accounting	Jan, May, Sep	4 semesters (1 year 4 months)	\$16,560	063115A

The Bachelor of Film and Television is a profoundly interactive and project-based degree that blurs the boundaries between education and industry. Designed to balance practical filmmaking experience with creative theory, it encourages students to develop their creativity and artistic voice. This comprehensive program focuses on visual storytelling through key areas like producing, screenwriting, directing, cinematography, editing, sound design, production design, and television broadcasting.

Students acquire modern production skills using professional filmmaking equipment and technologies. They develop strong visual aesthetics and storytelling capabilities, and receive insight into the business and industrial aspects of the international film, television, and screen industries.

Key features

- Learn from academics with extensive professional careers in the film, television, and screen-based industries.
- Enjoy state-of-the-art film and television equipment and technology from day one of your studies.
- Gain industry experience through internships, work experience, competitions, and more.

Specialisations

- Cinematography
- Directing (Fiction)
- Directing (Non-Fiction)

Samantha Strauss is writing a new narrative for Australian television

Samantha is a multi-award-winning writer known for creating characters with complexity, but she didn't consider herself a strong writer until, while studying a Bachelor of Film and Television at Bond, she received feedback from a guest lecturer – actor, director and The Comedy Company writer Ian McFadyen. "You've got talent, you know. You should keep doing this," he told Samantha after reading her script.

Ian's encouragement came at the right time. The first film Samantha wrote at Bond was set at a dance school, and went on to become Dance Academy, a teen drama that still screens in 160 countries. From the first draft of Dance Academy, Samantha has been committed to socially impactful stories.

"For me, the power of writing is digging under the skin," she says. "It's about investigating stories that haven't had their time in the sunshine, letting the sunlight in and finding hope through those conversations."

This metaphor inspired the name of Samantha's production company Picking Scabs. She is part of a cohort of Australian women carving their reputation in the international film industry. As her career has taken off, she has chosen to focus on Australian projects and is among the growing number of filmmakers advocating for the introduction of local content requirements for major streaming platforms.

Construction, Property & Planning

Neve Cobham

FUTURE CONSTRUCTION MANAGER.
ADCO MENTEE. WATER POLO PLAYER.

I chose Bond for its accelerated courses as well as its hands-on experience with an undeniably great student-teacher ratio.

As part of the ADCO x Bond Mentor Excellence Program, I was matched with a mentor who became an advisor and my soundboard for the decisions I have to make on my career trajectory. I expanded my industry knowledge, practical fieldwork and teamwork skills and I feel so much more prepared and confident in pursuing a career in construction now.

The Career Development Centre is beyond helpful, especially for construction students, even if you just need a sounding board.

BACHELOR OF CONSTRUCTION MANAGEMENT AND QUANTITY SURVEYING

Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

CRICOS course code 078183K

The Bachelor of Construction Management and Quantity Surveying covers a comprehensive range of subjects focusing on the management and delivery of complex construction projects. The curriculum addresses topics like construction technology, construction techniques, plant and equipment management, site management, contract administration, building measurement, planning processes, and risks. The practical experience shared in this program ensures graduates can apply innovative, adaptable solutions within complex environments – skillsets that are highly sought-after by the construction industry.

Key features

- Learn in the University's Sustainable Development Precinct, which promotes the sustainable practices of tomorrow.
- Graduate with a professionally recognised qualification.
- Apply theoretical knowledge learnt in the classroom to practical settings.

Professional recognition

Graduates are internationally recognised by the Royal Institution of Chartered Surveyors (RICS) and the Chartered Institute of Building (CIOB). This program is nationally accredited with the Australian Institute of Quantity Surveyors (AIQS), and meets the educational requirements set by the Queensland Building Construction Commission (QBCC) for the granting of an Open Builders Licence.

Further study

- Master of Building Surveying (CRICOS 071287C)
- Master of Project Management (CRICOS 078813G)

Professional outcomes

- Building services
- Construction management
- Contract administration
- Estimation
- Property development
- Quantity surveying

BACHELOR OF PROPERTY

Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

CRICOS course code 078181A

Property is one of the largest employment sectors not just in Australia but in the world. Bond's Bachelor of Property builds skilled, agile graduates with the right attributes to stay current and competent in this ever-changing industry. Addressing subjects including construction practices, feasibility studies, finance, investment and valuation, property markets, sustainable development, and urban development, the Bachelor of Property is a comprehensive degree that can be applied to many career specialisations. This program also provides students with the opportunity to specialise in property valuation.

Key features

- Gain professional accreditation from some of the property industry's leading professional bodies.
- Learn from nationally and internationally recognised professionals.
- Graduate sooner with Bond's accelerated degrees and kickstart your property career.

Professional recognition

The Royal Institution of Chartered Surveyors (RICS) and the Australian Property Institute (API) recognise graduates of Bond's Bachelor of Property as academically qualified. Graduates are then eligible to apply to be professionally recognised by RICS and by the API as Registered Valuers and as Certified Practising Valuers (CPV) respectively, after a relevant professional practice period. These qualifications enable application for valuer registration by the Valuers' Registration Board of Queensland.

Further study

- Master of Project Management (CRICOS 078813G)

Professional outcomes

- Certified property valuation
- Property development management
- Portfolio management
- Property research and development

The Diploma of Built Environment provides an excellent foundation for a career or further study in the property and building sectors. Integrated with the broader Bond community from day one, diploma students enjoy access to additional support, and upon successful completion of their program, can articulate directly into a related Bond degree. Diploma of Built Environment students may specialise in either property or construction management and quantity surveying.

Key features

- Complete your diploma in just eight months.
- Integrate into the Bond University environment from day one.
- Enjoy the support of extra tutorials just for diploma students.
- Articulate into a corresponding Bond undergraduate program^.

Further study

The Diploma of Built Environment is a two-semester program that allows you to complete a qualification in just eight months. Upon successful completion of the diploma, you can pathway into the third semester of a Bond University undergraduate degree with a potential 80 credit points.

Postgraduate study

After your undergraduate study is complete, Bond offers a range of postgraduate study options for you to specialise and further develop your skills and knowledge.

SPOTLIGHT ON:

ADCO x Bond Mentor Excellence Program

Bond has partnered with industry leader ADCO Constructions to provide undergraduate and postgraduate construction students with the opportunity to connect with industry professionals and build valuable networks through a formal mentorship program.

Bond students selected for the program are paired with ADCO staff with significant experience in the construction sector. The mentorship offers students invaluable insights, guidance and hands-on exposure to the world of construction by working on real projects.

Health, Biomedical & Sports Sciences

Claudia Mankarious

BIOMEDICAL SCIENCE GRADUATE.
SOUL CYCLE ENTHUSIAST.
PROUD BONDY.

At Bond, I love how hands-on and engaging the learning experience is.

It's inspiring to learn in an environment where academics share their incredible experiences and offer unwavering support.

The highlight of my time at Bond has been making meaningful friendships.

BACHELOR OF BIOMEDICAL SCIENCE

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063085B	80 / 28	Jan, May	6 semesters (2 years)	\$17,840

Biomedical science is the interface between science and medicine, and forms the backbone of advances in medicine and healthcare. Bond's Bachelor of Biomedical Science offers a pathway to further study and ultimately, practice, in these disciplines. Throughout your degree, you will develop an understanding of the human body's fundamental processes and analyse case studies and apply problem-solving techniques in a variety of clinical, research and allied healthcare settings.

With Bond's accelerated timetable, you can complete the Bachelor of Biomedical Science in just two years and progress into your chosen postgraduate health sciences program. This program is based primarily at Bond's Varsity Lakes campus, with some subjects taught at the Bond Institute of Health & Sport at Robina.

Key features

- Undertake the fastest pathway to a postgraduate qualification in physiotherapy, occupational therapy, nutrition and dietetics, healthcare innovations, or medical research.
- Receive unrivalled access to laboratories and personal support from dedicated staff.
- Learn in a dynamic, interactive environment using virtual reality and augmented reality technologies.

Entry requirements

- English
- Either Mathematical Methods or Physics or equivalent

Majors / specialisations

- Laboratory / Research
- Pre-Health Professional

Further study

Bachelor of Biomedical Science graduates who meet the necessary entry requirements may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Nutrition and Dietetic Practice (CRICOS 105326E)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)

Domestic and international students eligible to graduate from the Bond University Bachelor of Biomedical Science (in the Pre-Health Professional major) who meet the GPA requirements will be eligible to be considered for lateral entry into Year 2 of the Bachelor of Medical Studies (CRICOS 0101292) at Bond.

High-achieving students may qualify to complete one of our two Honours programs: the Bachelor of Health Sciences (Honours) [CRICOS 063044M] or Bachelor of Health Sciences (Honours, Intensive) [CRICOS 108815H]. Completing one of these Honours programs is a prerequisite for entry into Higher Degree by Research programs.

Professional outcomes

- Clinical research
- Laboratory management
- Medical research
- Pathology
- Research science

BACHELOR OF EXERCISE AND SPORTS PERFORMANCE

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0100510	70 / 25	Sep	6 semesters (2 years)	\$17,840

If you are a keen sportsperson or exercise fanatic, why not put your passion into practice? Drawing on cross-faculty expertise, the Bachelor of Exercise and Sports Performance combines anatomical sciences and physiology with your choice of complementary studies such as entrepreneurship and innovation, sport management, or tourism and events management.

You'll be exposed to practical learning opportunities including small group work and work experience. Upon completion of this program, you may pathway into a postgraduate degree in physiotherapy or occupational therapy.

This program is taught at both our Varsity Lakes campus and the Bond Institute of Health & Sport, where you will gain practical experience in our high-performance training centre, and sport and health science laboratories.

Entry requirements

- English
- General Mathematics (or higher) or equivalent
- One (1) of Chemistry, Physical Education, Physics or Biology

Further study

Bachelor of Exercise and Sports Performance graduates who meet the necessary entry requirements may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)

You may also opt to undertake higher degree qualifications in areas such as strength and conditioning, exercise physiology and biomechanics through research-based postgraduate studies.

Professional outcomes

- Community or corporate support (disability, aged care, workplace wellness)
- Education
- Research
- Sport and fitness

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

BACHELOR OF EXERCISE AND SPORTS SCIENCE

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 080641D	70 / 25	Jan	6 semesters (2 years)	\$17,840

Bond's Bachelor of Exercise and Sports Science looks at the science of human movement and how it relates to high-level sport performance. It dives deep into topics including human anatomy, physiology, exercise biochemistry, skill acquisition, biomechanics, and exercise and sport psychology.

Throughout your studies, you will gain 140+ hours of practical placement experience providing athletic testing, performance analysis, exercise prescription and delivery for athletes and non-athletes. Delivered primarily at the Bond Institute of Health & Sport, you'll also enjoy opportunities to observe and work with athletes and sporting teams that use the world-class facilities.

Entry requirements

- English
- General Mathematics (or higher) or equivalent
- One (1) of Chemistry, Physical Education, Physics or Biology

Further study

Students who complete the Bachelor of Exercise and Sports Science and meet the necessary entry requirements may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)

You may also undertake higher degree qualifications in areas such as strength and conditioning, exercise physiology and biomechanics through research-based postgraduate studies.

Professional outcomes

- Education
- Health policy
- Health programming
- Practice as an Accredited Exercise Scientist (AES)
- Research
- Sport and fitness

BACHELOR OF HEALTH SCIENCES

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063068C	65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

The ideal foundation for further study in science or allied health, Bond's Bachelor of Health Sciences imparts the fundamentals of applied sciences alongside your choice of electives in fields like sport and exercise science, psychology, nutrition, biomedical science, or healthcare informatics. Develop your technical, scientific, and research skills through hands-on practical work in our state-of-the-art health science and human movement laboratories. Upon graduating, you will be prepared for a variety of opportunities in the healthcare sector, or to complete additional undergraduate or postgraduate studies to satisfy your career aspirations.

Further study

Students who complete the Bachelor of Health Sciences and meet the necessary entry requirements may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Nutrition and Dietetic Practice (CRICOS 105326E)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)

High-achieving students may qualify to complete one of our two Honours programs: the Bachelor of Health Sciences (Honours) [CRICOS 063044M] or Bachelor of Health Sciences (Honours, Intensive) [CRICOS 108815H]. Completing one of these two Honours programs is a prerequisite for entry into Higher Degree by Research programs.

Professional outcomes

- Data science
- Health administration
- Healthcare
- Health promotion
- Laboratory management

BACHELOR OF HEALTH SCIENCES (HONOURS)

		Starting	Duration	Fees per semester**
CRICOS course code 063044M		Jan, May	3 semesters (1 year)	\$13,380

Bond's Bachelor of Health Sciences (Honours) allows you to complement your undergraduate studies with a focused research project of your choice over a 12-month (three-semester) period. In this program, you must conceptualise, plan, organise, undertake, and report on an independent research project while being supervised by an academic staff member. The culmination of the Bachelor of Health Sciences (Honours) is an honours thesis and the presentation of a research seminar. As a graduate of this program, you will possess strong communication, analytical, critical thinking, and project management skills.

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

**BACHELOR OF HEALTH SCIENCES
(HONOURS, INTENSIVE)**

	Starting	Duration	Total program fee**
CRICOS course code 108815H	May	2 semesters (8 months)	\$40,140

Similar to the Bachelor of Health Sciences (Honours), this intensive program involves a focused research project in the health sciences, overseen by an academic staff member. It is accelerated into an intensive 8-month (two-semester) period of intensive research training and independent research and study. The culmination of this program is an honours thesis and the presentation of a research seminar. Upon completion of the Bachelor of Health Sciences (Honours, Intensive) you will be eligible to pathway into a research master's or PhD program.

Further study

The Bachelor of Health Sciences (Honours) and Bachelor of Health Sciences (Honours, Intensive) provide pathways to postgraduate study, typically the Master of Science by Research (Health Sciences) [CRICOS 073729K] or the Doctor of Philosophy (CRICOS 063150J).

Professional outcomes

- Academia
- Health promotion
- Research and research assistance

BACHELOR OF HEALTH TRANSFORMATION

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 107659A	65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

The contemporary healthcare system needs professionals who can manage change and bring entrepreneurial thinking to public, private and community-based settings. Bond's Bachelor of Health Transformation is designed to create these professionals, imparting the leadership, communication, and management skills required to support the delivery of modern healthcare services.

Throughout the Bachelor of Health Transformation, students will build the knowledge required to design transformative solutions to diverse global health challenges. The program consists of discipline studies in health sciences, combined with transdisciplinary studies in design thinking, law, technology and global citizenship; personalised industry immersions; and tailor-made major projects.

Key features

- Lead and manage transdisciplinary teams and projects.
- Design, propose, and apply innovative solutions to real healthcare challenges.
- Think critically about the changing demands that society will place on our future health systems.

- Innovate beyond traditional modes of healthcare delivery by linking consumer expectations, public needs, and health sector outcomes.
- Apply principles of advocacy and social entrepreneurship to address healthcare issues.

Professional outcomes

- Clinical informatics
- Digital health education
- Health campaign management
- Healthcare communications
- Health consulting

DIPLOMA OF HEALTH SCIENCES

	Selection rank ATAR	Starting	Duration	Fees per semester**
CRICOS course code 093260K	60	Jan, Sep	2 semesters (8 months)	\$17,840

The Diploma of Health Sciences, delivered by Bond University College, is the perfect stepping stone to future undergraduate study in a health-related discipline. Select from two pathways - Biomedical Science (Pre-Health) and Exercise and Sports Science - and upon successful completion of your diploma, articulate directly into a relevant bachelor's degree.

Throughout the Diploma of Health Sciences, you'll develop key scientific skills, including an understanding of the anatomical, molecular, and physiological processes of human health and function. You'll also learn the core academic skills needed to succeed in the tertiary environment, such as essay writing, critical thinking, study techniques, time management, and more.

Key features

- Complete your diploma in just eight months.
- Integrate into the Bond University environment from day one.
- Enjoy the support of small, personalised classes as well as access to our Academic Skills Centre, one-on-one tutoring, and workshops.

Further study

Successful completion of the Diploma of Health Sciences guarantees students a place in Bond's Bachelor of Health Sciences (CRICOS 063068C), Bachelor of Biomedical Science (CRICOS 063085B), Bachelor of Exercise and Sports Science (CRICOS 080641D), or Bachelor of Exercise and Sports Performance (CRICOS 0100510) with subjects credited towards their degree. The Diploma of Health Sciences is also a pathway into other bachelor's degrees with varying credit available.

Postgraduate study

Graduates of Bond's undergraduate programs in health, biomedical and sports sciences can pursue postgraduate study in a range of allied health disciplines, as well as developing their interests and expertise in research or healthcare innovations.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Nutrition and Dietetic Practice	May	6 semesters (2 years)	\$17,960	105326E
Master of Occupational Therapy	May, Sep	6 semesters (2 years)	\$22,720	106625H
Doctor of Physiotherapy	May	6 semesters (2 years)	\$24,440	111801K

Bond Institute of Health and Sport

Exercise and sports science and performance, occupational therapy, nutrition and dietetics, and physiotherapy students learn and train at the Bond Institute of Health and Sport, a state-of-the-art, purpose-built teaching facility just 4km from Bond's Robina campus.

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

The deadly impact of antibiotic overprescription — and what you can do to help

We've all been there. After days (that can often feel like weeks) of suffering cold and flu symptoms, we head to our local doctor hoping to find a solution. But our desire for short-term relief from sickness is contributing to some long-term – and deadly – consequences.

Antimicrobial resistance (AMR) happens when different types of organisms, including bacteria, viruses, fungi and parasites, stop responding to medicines.

It's a growing and very serious issue, with deaths from AMR predicted to overtake cancer deaths by 2050. Bond University Assistant Professor, Dr Mina Bakhit, leads research into antimicrobial stewardship (AMS) at the Institute for Evidence-Based Healthcare (IEBH).

Dr Bakhit's IEBH research team, alongside researchers across Australia, have been granted \$4 million by The Medical Research Future Fund (MRFF) to combat inappropriate antibiotic use in Australian clinical practice.

The five-year clinical implementation trial aims to identify the most effective strategy for intervention in primary care settings, to reduce the use of antibiotics and – in turn – reduce resistance in the broader community.

"More than one-third of the Australian population had at least one antibiotic in 2022, with most antibiotic prescriptions happening in a community setting," points out Dr Bakhit.

"We'll be inviting general practitioners (GPs) to help co-design intervention packages that use proven approaches, including audit and feedback strategies and information handouts, to target primary care patients with acute respiratory infections."

Dr Bakhit says patients should always ask their doctor, "Is this antibiotic prescription necessary?".

International Relations, Politics & Arts

Sienna Grubb

VICE CHANCELLOR'S ELITE SCHOLAR.
VOLUNTEER. BEACH LOVER.

Moving across the country to study at Bond seemed scary at first but it has taught me things about myself I wouldn't otherwise have learnt.

I travelled to Japan to represent Bond at the Japan-English Model United Nations held at Kindai University. We attended the Australian Embassy in Tokyo, met the Counsellor for Public Affairs, and I was awarded the Diplomacy Award for my efforts representing Mexico.

Through Bond, I also visited Nepal to live in a rural village for three weeks, teaching kids in schools and helping to paint an entire building and render a new classroom. It was the most amazing experience.

BACHELOR OF ARTS

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063052M	65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

The Bachelor of Arts is a generalist program that allows you to select a combination of subjects to best suit your interests and aspirations. It offers flexibility in your choice of majors, with the opportunity to either specialise in a particular area of study or to select multiple complementary majors.

Perfect for the creative thinker or curious learner wanting to build a strong foundation for their future career or further study, the Bachelor of Arts is a dynamic and flexible program that will set you up for success.

Key features

- Customise your study interests to match your career goals.
- Choose from over 20 major options^.
- Broaden your knowledge or specialise your skillset.

Majors / specialisations

- Advertising
- Advertising Design and Production (double major)
- Australian Studies^
- Cinema Journalism (double major)
- Communication
- Corporate Storytelling
- Criminology
- Cyber Security

- Digital Media
- Film and Television
- Global Studies (Sustainability)
- International Relations
- Journalism
- Media Studies
- Philosophy
- Psychology (double major option available)
- Public Relations
- Social Media

Further study

- Master of Arts (Coursework) [CRICOS 078662F]
- Master of Communication (CRICOS 078660G)

Professional outcomes

The Bachelor of Arts program equips students for success in both creative and corporate environments. Graduates can expect employment opportunities across a wide range of industries depending on their chosen major/s.

BACHELOR OF GLOBAL STUDIES (SUSTAINABILITY)

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 078186G	65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

The Bachelor of Global Studies (Sustainability) is a unique interdisciplinary degree that will equip you with the knowledge and skills to tackle the challenges of globalisation and contribute to the development of sustainable societies. The program structure looks at a broad range of issues related to world megatrends, including climate change, sustainable development, global health and disease, and transnational business. The program also develops the global dialogue needed for the security of globalised communities, with required competencies in international relations, diplomacy, and intercultural partnerships.

Key features

- Tailor your degree to your interests with a specialist major.
- Gain practical experience and develop industry contacts during your for-credit internship or capstone project.
- Explore career prospects in diverse areas such as agriculture, community development, or international diplomacy and trade.

Majors / specialisations

- Australian Studies^
- Cyber Security
- Digital Media
- Global Business
- International Relations

Further study

- Graduate Certificate in Environmental Consulting~
- Master of Arts (Coursework) [CRICOS 078662F]
- Master of International Relations (CRICOS 078661G)

Professional outcomes

- Agriculture
- Community development
- Conservation
- Defence
- Diplomacy
- Environmental impact assessment
- Ethical supply chain management
- Government
- Politics
- Public service

BACHELOR OF INTERNATIONAL RELATIONS

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 063074E

65 / 24

Jan, May, Sep

6 semesters (2
years)

\$17,840

The Bachelor of International Relations will prepare you for a fascinating career in a globalised world. Global and regional interdependence means that no state is unaffected by developments beyond its borders, and prosperity and security are based on international orientations. This program explores a rich variety of interconnected global issues and the factors that shape them, including war and peace on our planet, human security, diplomacy, governance, and the influence of climate change on the future world. You will gain insight into politics, economics, and diplomacy both in Australia and internationally.

Key features

- Complete your bachelor's degree in just two years, or your bachelor's and master's degrees in three.
- Gain insight into geopolitics, economics, and diplomacy in key geographic regions.
- Participate in simulation-based learning.
- Develop global connections by participating in the International Model United Nations program and undertaking global internships and industry placements.
- Receive mentorship from globally experienced academics and experts.

Majors / specialisations

Choose two majors from the following list

- Cyber Security
- Diplomacy
- People & Culture
- Regional Studies

Further study

- Master of International Relations (CRICOS 078661G)
- Master of International Relations / Master of Project Management (CRICOS 088317G)

Professional outcomes

- Defence
- Diplomacy
- Humanitarian work
- International business
- Media
- Tourism
- Trade

BACHELOR OF POLICY, PHILOSOPHY AND ECONOMICS

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 0101956

70 / 25

Jan, May, Sep

6 semesters (2
years)

\$17,840

The Bachelor of Policy, Philosophy and Economics is designed for those who want to make a meaningful contribution to society through public governance, public leadership, and ultimately, public influence. Encompassing subjects from the Faculty of Law, Bond Business School, and the Faculty of Society & Design, this truly multidisciplinary program will prepare you for the fast-paced global demands of the 21st century. You will study the global challenges faced by changing institutional and geopolitical structures, search for practical solutions, and draw on theory and history from economics, law, and international relations.

Key features

- Gain a broad perspective on policy, philosophy, and economic issues.
- Learn the skillset required to adapt to the changing world and bring value to a workplace.
- Access state-of-the-art resources.
- Select up to five elective subjects to complement your studies.

Further study

- Master of International Relations (CRICOS 078661G)
- Master of International Relations / Master of Project Management (CRICOS 088317G)

Professional outcomes

- Advocacy
- Not-for-profit work
- Politics
- Public policy
- Public service

DIPLOMA OF ARTS

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101729	50	Jan, May, Sep	2 semesters	\$17,840

The Diploma of Arts opens up a wide range of career and further study opportunities in disciplines including communication, creative arts, film and television, global studies, humanities, international relations, journalism, psychological science, and social science. This foundational program teaches students the core skills to enhance their career prospects, whether they are fresh out of school or are seeking to upgrade their qualifications.

Key features

- Benefit from the extensive support of our Academic Skills Centre, including one-on-one tutoring and workshops.
- Customise your study load – starting with one or two subjects part-time and building to full-time study as your confidence grows.
- Get all the help you need in our small, personalised classes.

Further study

Successful completion of the Diploma of Arts guarantees students a place in most undergraduate degrees at Bond University, with a possible 80 credit points towards their new program. Students are advised to check their chosen degree's study structure online to confirm which subjects they can receive credit for.

BACHELOR OF CLIMATE CHANGE AND SUSTAINABLE ACTION

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 114037F	65 / 24	Jan, May, Sep	6 semesters	\$17,840

The Bachelor of Climate Change and Sustainable Action is an innovative, market-leading program designed in response to global challenges that necessitate sustainability and climate change specialists. This interdisciplinary, non-scientific undergraduate program brings together perspectives on climate change from areas including communication, media, psychology, health, law, and business. Students will form a strong understanding of the 21st century's most pressing challenges and develop the skills to address them holistically. Upon graduating, you will be well-equipped to lead the promotion of sustainability strategy across the private, not-for-profit, and government sectors.

Key features

- Participate in simulation-based learning.
- Study in a multidisciplinary, holistic program.
- Learn the skillset required to adapt to the changing world and bring value to a workplace.

Majors / specialisations

- Business Context and Environment
- Climate and Environment Law
- Communication
- Communication & Society
- Digital Media
- Global Studies (Sustainability)

- Health and Sustainability
- International Relations
- Journalism
- Project Management
- Public Relations
- Sustainable Architectural Design

Sustainable Action Capstone

- Capstone Project and/or Internship Placement

Further study

- Graduate Certificate in Environmental Consulting~
- Master of International Relations (CRICOS 078661G)
- Master of Project Management (CRICOS 078813G)

Professional outcomes

- Climate change consulting
- Climate communications
- Climate policy
- Environmental policy
- Public health and infrastructure planning
- Renewable energy
- Sustainable business strategy
- Sustainability management

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

Dr Mark Dinnen

ASSISTANT PROFESSOR. INTERNATIONAL RELATIONS EXPERT.
MODEL UNITED NATIONS ADVOCATE.

“Studying international relations at Bond is much more than just learning from textbooks - it’s an opportunity for students to embrace the world around them! There are so many opportunities at Bond designed to reinforce classroom learning with global experiences. Which country would you like to visit on exchange? What kind of international internship could accelerate your career? How can our model UN program enable you to travel the world and engage in multicultural, collaborative learning? Instead of just reading about IR topics and principles at Bond, you’ll experience them firsthand through simulations and real-world applications.”

Bond University alumnus

Leads Bond University’s multi-award-winning Model UN team

Winner of the 2018 Vice Chancellor’s Award for Outstanding Contribution to Student Learning Through Sustained Innovation

Recipient of a 2018 Award for Teaching Excellence Citation from the Australian Awards for University Teaching

2020 Vice Chancellor’s Early Career Teaching Excellence Award

SPOTLIGHT ON:

The Bond University High School Model United Nations (BUHMUN)

The Bond University High School Model United Nations (BUHMUN) is a two-day conference where high school students embrace the role of a modern diplomat. During this immersive experience, students will represent a country's position in simulated international debates addressing the world's most pressing issues.

BUHMUN was Australia's first university-run model united nations for high school students and has been running since 2017.

Law

Fletcher O'Connell

FUTURE LAWYER. PERTH-RAISED. MOOTER.

Studying law has broadened my understanding of society and encouraged me to think critically while problem solving.

A highlight of my time at Bond has been representing Bond at the Australian Law Students' Association national conference in Tasmania.

My advice to high school students is that every opportunity to step outside your comfort zone is an invitation for personal growth.

BACHELOR OF LAWS

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 093922K	85 / 30	Jan, May, Sep	8 semesters (2 years 8 months)	\$17,840

Bond's Bachelor of Laws program will prepare you for a career in the legal profession, corporate sector, or government sector in Australia. Excellent teaching, small class sizes, and our extensive Integrated Skills and Professionalism Program provide an exciting and comprehensive learning experience that will challenge you academically and prepare you practically for your chosen career in the legal profession.

Our unique Integrated Skills and Professionalism Program focuses on core skills essential to the practice of law. These skills include dispute resolution and collaboration, legal ethics and professionalism, legal research and reasoning, legal writing and drafting, and oral communication and advocacy.

Key features

- Learn critical skills in our embedded Integrated Skills and Professionalism Program.
- Select from specialisations and majors including Climate Law and Legal Innovation and Technology.
- Gain practical legal experience through the Bond Legal Clinics Program.
- Opportunities to participate in our domestically and internationally recognised moot program.

Majors / specialisations

- Canadian Law and Practice
- Climate Law
- Contemporary Legal Issues
- Corporate and Commercial Law
- International and Comparative Law
- Legal Practice
- Legal Innovation and Technology

Further study

The Bachelor of Laws is an approved degree for the purposes of admission to legal practice in Australia. To become a legal practitioner, you will also need to complete practical legal training (PLT) via the Graduate Diploma in Legal Practice, or a traineeship.

The Bachelor of Laws may also be used to apply for admission internationally. You are advised to confirm the admission requirements of the jurisdiction in which you wish to practise.

Professional outcomes

- Legal practice (lawyer, barrister)
- Business leadership
- Government
- In-house legal counsel

BACHELOR OF BUSINESS LAW

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063057F	80 / 28	Jan, May, Sep	6 semesters (2 years)	\$17,840

The Bachelor of Business Law combines legal foundations with business fundamentals to form a course of study for those who do not wish to practise law. Law is increasingly regarded as excellent preparation for a range of careers within business and management.

This program will not qualify you to practise law in Australia, instead see the Bachelor of Laws (CRICOS 093922K).

Key features

- Study the essentials of both law and business.
- Select from business majors including Accounting, Economics, Marketing, or Finance.
- Tailor your studies to suit your career aspirations and interests.
- Develop skills in legal reasoning, writing, communication, and advocacy.

Further study

If you wish to practise law, you must complete the Bachelor of Laws (CRICOS 093922K) or Juris Doctor (CRICOS 093923J) followed by the Graduate Diploma in Legal Practice.

Professional outcomes

- Business administration
- Consulting
- Human resources
- Management

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

BACHELOR OF JURISPRUDENCE

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 063078A

80 / 28

Jan, May, Sep

6 semesters
(2 years)

\$17,840

The Bachelor of Jurisprudence combines legal subjects of particular interest with study in related disciplines such as international relations, criminology, languages, and communication.

Unlike the Bachelor of Laws (CRICOS 093922K), this program is not designed to qualify you to practise as a lawyer, but rather, to impart fundamental legal skills that will set you up for success.

Key features

- Combine legal studies with a related discipline that aligns with your interests.
- Enjoy a personalised learning environment with small classes and unmatched access to academic teaching staff.

Further study

If you wish to practise law, you must complete the Bachelor of Laws (CRICOS 093922K) or Juris Doctor (CRICOS 093923J) followed by the Graduate Diploma in Legal Practice.

Professional outcomes

- Court clerkship
- Legal support
- Policy advice
- Trust administration

BACHELOR OF LEGAL TRANSFORMATION

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 107661G

65 / 24

Jan, May, Sep

6 semesters
(2 years)

\$17,840

The legal profession isn't immune to change – in fact, it's evolving faster than ever before. With this constant disruption comes a need for nimble professionals who have the skills to not just ride the waves but turn the tide. The Bachelor of Legal Transformation is committed to producing graduates who fit the bill – not lawyers, but industry changemakers who blend legal knowledge with lateral thinking and the problem-solving skills of the future.

The Bachelor of Legal Transformation combines legal studies; transdisciplinary studies in design thinking, entrepreneurship, technology, and global citizenship; personalised industry immersions; and tailor-made major projects.

Key features

- Understand contemporary legal problems and design ethical, practical, and creative solutions to them.
- Apply legal skills and knowledge to deliver legal services in the face of persistent technological change.
- Confidently lead and manage transdisciplinary teams and projects.
- Think critically about the law and technology in social and commercial settings and culturally diverse contexts.

Professional outcomes

- Legal entrepreneurship
- Legal project management
- Legal solutions architecture
- Legal technology design

DIPLOMA OF LEGAL STUDIES

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 080298C

65 / 24

Jan, May, Sep

2 semesters
(8 months)

\$17,840

The Diploma of Legal Studies provides students with a basic grounding in Australia's legal system, the principles of business law, and the contemporary legal issues confronting Australian society.

This program offers a supported preparation and pathway for further undergraduate study in law. You will also learn communication and problem-solving skills, engage in individual and group decision-making, and develop an understanding of ethics, morals, and cultural beliefs.

Key features

- Complete your diploma in just eight months.
- Integrate into the Bond University environment from day one.
- Enjoy the support of extra tutorials just for diploma students.

Further study

Successful completion of the Diploma of Legal Studies guarantees students can articulate directly into Bond's Bachelor of Laws (CRICOS 093922K) or Bachelor of Legal Transformation (CRICOS 107661G) with 80 credit points. The Diploma of Legal Studies also provides a pathway into other undergraduate degrees with varying credit available.

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Postgraduate study

An approved professional legal training (PLT) program, the Graduate Diploma in Legal Practice (GDLP) is required for Bachelor of Laws graduates who wish to qualify for admission as a legal practitioner. This practical program includes a short coursework component and a legal placement.

Bond also offers some postgraduate master's programs for law graduates, or graduates from other undergraduate programs, including the Master of Laws in Enterprise Governance.

	Starting	Duration	Fees per semester**	CRICOS course code
Graduate Diploma in Legal Practice	Jan, May, Sep	2 semesters (8 months)	\$5,600	N/A*
Master of Laws in Enterprise Governance	Sep	4 semesters (1 year 4 months) Available for part-time study only	\$45,440 (total program fee)	N/A

SPOTLIGHT ON:

The National High School Mooting Competition

A moot is a mock court proceeding. In a moot, students act as legal counsel representing one of the parties to those proceedings, delivering oral presentations of legal submissions, against opposing counsel, before a moot court judge.

Hosted by the Bond University Faculty of Law, the National High School Mooting Competition is one of the most established of its kind in Australia. The competition provides an opportunity for high school students from across the nation to learn more about the law and begin to develop tangible legal skills.

The National High School Mooting Competition is open to students in Years 11 and 12 at Australian high schools. Teams are made up of two or three students, and the preliminary rounds of the competition are held virtually (online), with the semifinals and grand final held on campus on the Gold Coast at Bond.

Medicine

Jay Lakhana

DOCTOR-IN-TRAINING. VOLLEYBALLER.
SYDNEYSIDER.

I started at Bond in the Bachelor of Biomedical Science and started the Medical Program in 2024.

Bond's small class sizes have allowed me to get to know my entire cohort and make lifelong friendships.

My advice to future university students is to put yourself out there. Everyone is in the same boat so make the most of every opportunity.

MEDICAL PROGRAM[^]

	Starting	Duration	Fees per semester**
Bachelor of Medical Studies (BMedSt) (CRICOS 0101292)	May, Sep	8 semesters (2 years 8 months)	\$32,630
Doctor of Medicine (MD) (CRICOS 111520H)		6 semesters (2 years)	\$32,630
		Total 14 semesters (4 years 8 months)	

Designed to meet the needs of today's complex healthcare environment, Bond's Medical Program[^] will equip you with the fundamental knowledge, skills and attributes required to practice medicine safely and effectively. You'll graduate with the clinical, interpersonal, teamwork and leadership skills required to deliver high-quality healthcare outcomes, as well as an ingrained commitment to care for yourself, your colleagues, and all community groups.

The Medical Program[^] comprises two sequential degrees. You'll first be required to complete the Bachelor of Medical Studies (BMedSt) [CRICOS 0101292], where you will participate in small group learning, simulation activities, community and clinical placements, and a cultural immersion experience.

You'll then complete the Doctor of Medicine (MD) [CRICOS 111520H] to be eligible to practice medicine. You'll engage in evidence-based medicine and integrated placements within clinical sites and will gain extended exposure to areas including child health, medicine, mental health, surgery, and women's health.

Bond's intensive program of 4 years and 8 months is the shortest pathway to a Medical Doctorate in Australia.

Professional accreditation and recognition

The Medical Program[^] is accredited by the Australian Medical Council (AMC) and ensures graduates meet or exceed the agreed national guidelines for medical education. Upon successful completion of the Medical Program[^], graduates are eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand.

Further study

Graduates of the Medical Program[^] will have the appropriate knowledge, attitudes, and skills to work effectively as interns in Australian and New Zealand hospitals and will be ideally positioned to undergo further training in any of the Australasian specialty colleges.

Professional outcomes

- Medical specialisation including general practice
- Surgical specialisation

Dr Nicolene Lottering

ASSOCIATE DEAN OF LEARNING AND TEACHING. AWARD-WINNING FORENSIC SCIENTIST. ANATOMIST IN THE MEDICAL PROGRAM.

"Embarking on a career in medicine is more than just a profession; it's a lifelong commitment to learning, compassion and service. Bond's Medical Program stands out due to its emphasis on hands-on experience, early clinical exposure, and fostering critical thinking through small-group learning. In this program, it's not just about absorbing information but about developing a mindset – a way of thinking that extends beyond textbooks."

Recipient of the 2015 Forensic Sciences Emerging Forensic Scientist Award, awarded by the American Academy of Forensic Sciences (AAFS)

Recipient of 2018 National Teaching Award - Australian Awards for University Teaching Citation for Outstanding Contributions to Student Learning

Recipient of the 2022 International Osmosis (Elsevier) Raise the Line Faculty Award - Anatomy and Physiology Grand Prize

Recipient of the 2024 Faculty (Health Sciences and Medicine) Teaching Excellence Award

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

[^] The Medical Program comprises two sequential degrees - the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). Applications for Medical Program must be lodged through QTAC. All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

Project Management & Innovation

Filmon Tesfazion

ERITREAN NATIONAL. FUTURE PROJECT MANAGER.
SOCIAL IMPACT CHAMPION.

I chose to study project management because it gives me a foundation to pursue my passion for developing projects that have a positive social impact.

I decided to study at Bond because of the renowned collaborative classroom experience, which develops the soft skills necessary to succeed in project management.

If I could go back and give 15-year-old me some advice about studying at Bond, it would be to take a holistic approach when making decisions. It was through analysing my hobbies that I found project management was the right area of study for me.

BACHELOR OF PROJECT MANAGEMENT

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101294	65 / 24	Jan, May, Sep	6 semesters (2 years)	\$17,840

The Bachelor of Project Management builds the agility, resilience, and technical skills necessary to take on growing challenges across a range of sectors. In your first three semesters, you'll learn foundational knowledge like business acumen, project frameworks, and process analysis, before building on this in the subsequent three semesters as you develop technical and strategic decision-making skills.

As Queensland's only undergraduate pathway from high school to practice as a project manager, the Bachelor of Project Management at Bond is an innovative program that covers everything from project scheduling and costing to resourcing, scope, quality, procurement, communications, risk, and stakeholder management.

Key features

- Study a program endorsed by the Australian Institute of Project Management (AIPM) and structured around the PMBOK® Guide, the international standard for project management.
- Pathway directly from high school to professional certification as a project manager.
- Learn how to deliver projects on time, within budget, as specified, and with no surprises.

- Become an effective decision maker.
- Gain critical leadership skills.
- Choose electives from across the University based on your career ambitions or interests.

Further study

Graduates can undertake postgraduate study across a wide range of specialised study areas such as construction practice, valuation and property development, communication and international relations.

Professional outcomes

Project management in industries including:

- Business
- Construction
- Disaster management
- Engineering
- Information technology
- Healthcare
- Manufacturing
- Mining
- Property development

Greg Skulmoski

ASSOCIATE PROFESSOR. PROJECT INNOVATION AND MANAGEMENT EXPERT. CYBERSECURITY LEADER.

"When exposed to Bond's flexible learning style, our project management students become more engaged, produce higher quality work, and learn to a higher standard. For their projects of choice, we have seen an array of interesting concepts, such as developing tiny homes, setting up a taco truck, transporting an elephant between zoos, planning a wedding in the Canadian Rockies, and renovating an apartment building. I love seeing the enthusiasm that our students bring to their assignments."

University of Calgary and University of Regina graduate

Winner of the 2017 Middle East Security Award, Chief Information Officer Council - 100 Rising Stars in Security and Risk

Recognised in the Cleveland Clinic Top 10 Medical Innovations: Smartphone-Connected Pacemaker Devices

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Psychology, Criminology & Social Sciences

Aiden Van Elst

PEOPLE PERSON. BOND PSYCHOLOGICAL SOCIETY PRESIDENT. EXCELLENCE SCHOLAR.

When I first visited Bond as part of the Student for a Semester program when I was in high school, I felt deeply welcomed and I knew that the psychology environment here was going to be my number one choice.

I have so much admiration and gratitude for the connections I've made with my academics and fellow students.

Bond has provided me with the opportunity to engage in various research assistant work, and I have internships arranged for the coming semesters.

BACHELOR OF ARTS

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 063052M

65 / 24

Jan, May, Sep

6 semesters
(2 years)

\$17,840

The Bachelor of Arts is a generalist program that allows you to select a combination of subjects to best suit your interests and aspirations. It offers flexibility in your choice of majors, with the opportunity to either specialise in a particular area of study or to select multiple complementary majors.

Perfect for the creative thinker or curious learner wanting to build a strong foundation for their future career or further study, the Bachelor of Arts is a dynamic and flexible program that will set you up for success.

Key features

- Customise your study interests to match your career goals.
- Choose from over 20 major options.
- Broaden your knowledge or specialise your skillset.

Majors / specialisations

- Advertising
- Advertising Design and Production (double major)
- Australian Studies[^]
- Cinema Journalism (double major)
- Communication
- Corporate Storytelling
- Criminology
- Cyber Security

- Digital Media
- Film and Television
- Global Studies (Sustainability)
- International Relations
- Journalism
- Media Studies
- Philosophy
- Psychology (double major option available)
- Public Relations
- Social Media

Further study

- Master of Arts (Coursework) (CRICOS 078662F)
- Master of Criminology (CRICOS 078659A)
- Master of Criminology / Master of Project Management (CRICOS 088316G)

Professional outcomes

The Bachelor of Arts program equips students for success in both creative and corporate environments. Graduates can expect employment opportunities across a wide range of industries depending on their chosen major/s.

BACHELOR OF CRIMINAL JUSTICE AND CRIMINOLOGY

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 107663E

65 / 24

Jan, May, Sep

6 semesters
(2 years)

\$17,840

If you're interested in a career in justice or understanding the sociological and psychological characteristics of offenders and victims, then Bond's Bachelor of Criminal Justice and Criminology is the degree for you. This program equips you with multidisciplinary knowledge and skills from foundational criminology and law subjects while enabling you to specialise further in criminology or undertake advanced studies in psychology or law. Throughout your studies, you'll explore topics including justice procedures, cybercrime, criminal law, miscarriages of justice, crime prevention, public safety, child protection and juvenile justice.

Key features

- Tailor your specialisation in line with your career goals - justice, criminology, psychology, or law.
- Acquire critical skills via case analyses, research, and evaluations of justice policies and programs.
- Problem-solve recent crime-related issues and innovations in justice procedures.
- Gain integrated perspectives from our multidisciplinary approach.
- Build your industry connections through career events, field trips, and internships.

Further study

- Graduate Certificate in Criminology (CRICOS 083252F)
- Juris Doctor (CRICOS 093923J)
- Master of Criminology (CRICOS 078659A)
- Master of Criminology / Master of Project Management (CRICOS 088316G)

Professional outcomes

- Anti-corruption
- Corrections
- Court support
- Intelligence
- Intervention planning
- Policing
- Probation and parole
- Public safety and security
- Rehabilitation program management
- Victim advocacy and support
- Youth justice

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees.

^ Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

^ Major options are under review at the time of publication.

BACHELOR OF PSYCHOLOGICAL SCIENCE

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 062655C

65 / 24

Jan, May, Sep

6 semesters
(2 years)

\$17,840

The Bachelor of Psychological Science provides students with a scientific understanding of normal psychological processes like perception, memory, learning, motivation, psychobiology, personality, emotion, developmental psychology, and social relationships, as well as training in abnormal psychology.

Throughout your studies, you will participate in laboratory work and be introduced to the Australian Psychological Society Code of Ethics. To underpin the scientific nature of the discipline, you will receive training in a range of data analytics techniques and research methods used by psychologists.

This program will equip you with the scientific grounding and theoretical understanding required for advanced-level studies in psychology.

Key features

- Develop a strong foundation in the science of psychology and human behaviour.
- Choose electives in specialised areas such as neuropsychology, organisational psychology, and positive well-being.
- Participate in practical research in the Cognitive Research Labs.
- Network with professional psychologists and counsellors at events run by the Bond Psychological Society.
- Learn from internationally recognised psychologists in small, personalised classes.

Further study

- Bachelor of Psychological Science (Honours) (CRICOS 063047G)
- Master of Professional Psychology (CRICOS 096695C)
- Master of Psychology (Clinical) (CRICOS 063429E)

Professional recognition

The Bachelor of Psychological Science is fully accredited by the Australian Psychology Accreditation Council (APAC) as the equivalent of three years of university education on the pathway to becoming a registered psychologist in Australia. Graduates are required to complete six years of education and training to be eligible for registration.

Alternative pathway

The Graduate Diploma in Psychology (Bridging) allows students with an undergraduate qualification to fast-track the first three years of their studies on the pathway to becoming a registered psychologist. It is designed for those who possess a degree in a discipline other than psychology, or those who have completed undergraduate studies in psychology but have not met the entry requirements to progress directly into fourth-year studies. This program is not available to international students who intend to apply for a student visa to undertake this program.

Professional outcomes

Graduates who do not wish to pursue further study to qualify for registration as a psychologist will be equipped to undertake careers in:

- Behaviour management
- Career guidance
- Change management
- Child protection
- Counselling
- Criminal justice
- Human resources
- Organisational psychology
- Rehabilitation counselling
- Research
- Sport, exercise, and athlete performance

BACHELOR OF PSYCHOLOGICAL SCIENCE (HONOURS)

	Starting	Duration	Fees per semester**
CRICOS course code 063047G	Jan, May, Sep	2 semesters (8 months)	\$19,320

The Bachelor of Psychological Science (Honours) is the second step on the pathway to becoming a registered psychologist in Australia. In this degree, you will build on your existing psychological knowledge and apply it to a specialised research project. Under the guidance of your supervisor, you will be fully trained in research methods, psychometrics, statistics, and data analytics. All applied material is based on the scientist-practitioner model, and evidence-based approaches to psychological intervention are emphasised.

Key features

- Access a dedicated lab space with data analysis software and the Cognitive Research Labs to perform face-to-face research.
- Discover how the science and practice of psychology is influenced by social, historical, professional, and cultural contexts.
- Gain a theoretical understanding of some of the most widely used cognitive and personality assessments, as well as evidence-based approaches to psychological intervention.
- Develop your research and analytical skills as you work on your thesis.

Entry Requirements

To be eligible for the Bachelor of Psychological Science (Honours) program, applicants must have completed an APAC-accredited three-year sequence of study in psychology (or equivalent) within the past ten years. Admission is based solely on academic merit, requiring a minimum GPA of 2.0 on Bond University's 4-point scale (65%) for second- and third-year psychology subjects. Applicants with qualifications from outside Australia must have their qualifications assessed for equivalency by the Australian Psychological Society (APS) and provide evidence of this assessment with their application. Additional entry requirements may also apply; for more information on equivalency assessments, visit the APS website.

Further study

- Master of Professional Psychology (CRICOS 096695C)
- Master of Psychology (Clinical) (CRICOS 063429E)

Professional recognition

This program is fully accredited by the Australian Psychology Accreditation Council (APAC) as the equivalent of the fourth year of university training required to become a fully registered psychologist in Australia.

After completing the Bachelor of Psychological Science (Honours), graduates will be eligible to apply for provisional registration as a psychologist in preparation for the practicum placements required for the final two years of education and training. Entry to one of the two offered master's programs will be based on academic performance, an interview process, and a successful offer.

Professional outcomes

Graduates who do not wish to pursue further study to qualify for registration as a psychologist will be equipped to undertake careers in:

- Business
- Career guidance
- Community action
- Criminal justice
- Human resources
- Marketing and communications
- Mental health counselling and support
- Policymaking
- Rehabilitation counselling
- Research
- Sport, exercise, and athlete performance

DIPLOMA OF ARTS

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101729	50	Jan, May, Sep	2 semesters (8 months)	\$17,840

The Diploma of Arts opens up a wide range of career and further study opportunities in disciplines including communication, creative arts, film and television, global studies, humanities, international relations, journalism, psychological science, and criminology. This foundational program teaches students the core skills to enhance their career prospects, whether they are fresh out of school or are seeking to upgrade their qualifications.

Key features

- Transition directly into the third semester of more than a dozen undergraduate degrees offered by the Faculty of Society & Design.
- Benefit from the extensive support of our Academic Skills Centre, including one-on-one tutoring and workshops.
- Customise your study load - starting with one or two subjects part-time and building to full-time study as your confidence grows.
- Get all the help you need in our small, personalised classes.

Further study

Successful completion of the Diploma of Arts guarantees students a place in most undergraduate degrees at Bond University, with a possible 80 credit points towards their new program. Students are advised to check their chosen degree's study structure online to confirm which subjects they can receive credit for.

* Entrance scores provided are indicative only for 2026 admission and are subject to change.

** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees.

^ Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

^ Major options are under review at the time of publication.

Postgraduate study

Bond offers postgraduate programs in psychology and criminology for students to pursue a career as a registered psychologist, or further study.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Criminology	Jan, May, Sep	3 semesters (1 year)	\$17,310	078659A
Master of Professional Psychology	May	2 semesters (8 months)	\$47,040 (total program fee)	096695C
Master of Psychology (Clinical)	May	6 semesters (2 years)	\$15,410	063429E
Graduate Diploma in Psychology (Bridging)	Jan	3 semesters (1 year)	\$46,720 (total program fee)	N/A

Research and placement opportunities

Bond psychology students have access to research labs, the Psychology Test Library, and placement opportunities including experience at the Bond University Health and Wellness Clinic, a full-service teaching and training clinic where master’s students complete their practical internship placements under the supervision of professors and practitioners.

* Entrance scores provided are indicative only for 2026 admission and are subject to change.
 ** Fees per semester are based on an average calculation from 2025, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.
 ^ Major options are under review at the time of publication.

Postcards for our ancestors

From Jawoyn Country to Tonga and Bangladesh, our Bond University community is made richer by the diverse community of students, from across Australia and the globe, who call our campus home. Learning about their traditions and family stories inspired Indigenous Student Success and Wellness Officer Teresa Blair to capture a glimpse of their cultural heritage. Through letters to their ancestors, traditional dress, body art and dance, our students have shared with us a look into their legacies on the Thinking Steps.

4

Whatever your ambition,
your journey to realising
it starts right now.

**YOUR
FUTURE**

Things to consider when choosing a degree and university

Where you'll attend university, and what you'll study, is one of the biggest decisions you will make in your life. To help you navigate this next chapter with confidence, we're sharing some advice on how to ensure you find the right fit for you.

Your interests

What subjects were your strongest at school? What types of topics and careers fascinate you? When do you feel the most 'you'?

A great first step is to align your study to your passions, interests and ambitions, so spend some time reflecting on what you are interested in and start there when browsing program options.

How you learn best

Do you learn best independently, or do you prefer personal guidance and hands-on learning? Your learning environment is a crucial part of university study, and one that can surprise students who are transitioning from high school into a large university. Attend Open Days, explore websites, and ensure you're aware of all of your options, and the differences between them, before making a decision.

Your future career outcomes

When you think of your future career, what comes to mind? If there are certain careers or jobs that you can imagine yourself doing, think about what degree and university is best going to get you there considering the program and opportunities to gain work experience and build your employability.

Financing your degree

Bond University is a fully independent, not-for-profit institution that invests 100 per cent of your tuition fees into providing a five-star educational experience, state-of-the-art facilities, and a truly personalised student framework.

While our tuition fees are not subsidised by the Australian Government, they can be financed through a number of options including government assistance packages.

FEE-HELP

FEE-HELP is an interest-free student loan program funded by the Australian Government for all Australian citizens and others who meet the eligibility requirements. Similar to HECS-HELP, FEE-HELP allows eligible students to defer their tuition fees until after they graduate, when they can then be paid off in regular instalments.

From 1 January, 2020, a combined HELP loan limit replaced the FEE-HELP limit and includes FEE-HELP, VET Student Loans, VET FEE-HELP, and HECS-HELP. Only HECS-HELP borrowing from 1 January, 2020 onwards counts towards a person's HELP limit. Any existing FEE-HELP, VET FEE-HELP or VET Student Loans that counted towards your FEE-HELP limit will count towards the combined HELP limit.

In 2025, the combined HELP loan limit is \$126,839 for most students. The limit for students in the Medical Program is \$182,172. Repayments are made through the taxation system at a minimum rate of 1 per cent per annum when your annual income reaches \$54,435. The rate of repayment increases as annual income increases. You can apply for FEE-HELP online once you have received an offer from Bond University with your Student Identification Number.

studyassist.gov.au

Loyalty discounts

Bond offers a number of loyalty discounts to students who have a direct family member attending an eligible program at Bond or who have completed an eligible program here. These loyalty programs may provide a reduction of up to 10 per cent on tuition fees.

Other government assistance

Most Australian students who receive some form of government income support are on either Youth Allowance or AUSTUDY / ABSTUDY. Contact Centrelink for more information on eligibility.

Student Opportunity Fund

As a Bond student, you will have access to a range of experiences and activities to enhance your learning. The Student Opportunity Fund can help to finance those added extras with assistance available up to \$2,000. For more information, visit bond.edu.au/student-opportunity-fund

Living costs

In addition to your university tuition fees, there are a number of other costs to consider when planning your budget.

Estimated weekly living costs*

When considering the costs associated with your university studies, keep in mind that Bond's accelerated schedule means you'll finish your degree sooner. This signifies a substantial reduction in your total accommodation and living costs, as well as a full year of earnings from being out in the workforce earlier.

	On-campus accommodation	Off-campus accommodation	Homestay / boarding
Rent	\$220-\$335	\$220-\$500**	\$270

Experience Bond for yourself

There are lots of ways to engage with and experience Bond in your last years of school. Attend an Open Day or Experience Days, complete a full university subject or short learn-for-credit course. We host a number of prestigious national competitions for high school students, some of which even present scholarship opportunities for high achievers.

Explore

Student for a Semester Program

Bond's Student for a Semester Program allows high-achieving students to launch their tertiary studies ahead of their peers by undertaking a university subject while still in high school.

As a Student for a Semester, you will enrol in a Bond subject, get your own student ID card, and attend a weekly forum and tutorial. You'll be rewarded with an unforgettable experience, a global network of friends, and the chance to gain credit towards your university studies.

The Student for a Semester program is offered at an exclusive rate of \$250 per subject and is open to Year 11 and 12 students from the Gold Coast, Brisbane and Northern New South Wales regions with available subjects covering a range of topics such as architecture, law, marketing, screenwriting, and health.

The program will not only leave you with newfound knowledge about study and life at Bond, but you'll also gain a deeper understanding of the university experience, and a potential credit towards your future university degree at Bond.*

- Be supported by a current student mentor throughout the semester
- Access a career counselling session hosted by Bond's Career Development Centre
- Access all University facilities and support services including the Sports Centre, libraries and Academic Skills Centre

* Direct subject credit will depend upon your chosen degree program and may not be applied toward the Bachelor of Design in Architecture or the Bond Medical Program, due to the structure of these programs. Please check with Bond University prior to enrolment.

Learn for credit short courses

Take a deep dive into an area of interest and earn credit towards a university subject with Bond's unique learn for credit courses. Designed for Year 11 and 12 students, learn for credit courses combine on-campus workshops with online modules you can complete at your own pace.

Bond runs a calendar of learn for credit courses offered throughout the year in Brisbane and the Gold Coast, with topics including climate law, creative writing, business and more.

If you complete five learn for credit courses, you can apply for credit towards Bond University subjects and obtain two points towards the Queensland Certificate of Education.

Year 12 Extension Program

The Bond Business School's Year 12 Extension Program comprises fast-paced, two-day workshops designed to prepare students for university life and complement the Year 12 curriculum across business and maths streams. It is free of charge and top performing students will be awarded a part-fee scholarship.

Visit us

Take a campus tour

Accompanied by your very own student or staff guide, on a personalised campus tour you will explore Bond's facilities and teaching spaces in person or virtually.

Attend an Open Day

Open Days are the perfect way to learn more about everything a university has to offer. Meet students and academics, roam our beautiful campus, or connect with us virtually to learn about our programs and facilities.

[Learn more](#)

Accommodation

Bond is located in a residential neighbourhood with a range of on-campus and off-campus accommodation available for our students. There are many accommodation options within easy walking distance of all University facilities.

Living on campus

On-campus housing offers your choice of air-conditioned single or shared rooms. Residents benefit from one-on-one academic and personal support from the live-in team of Senior Resident Fellows, Student Resident Fellows, and Tutor Fellows.

Meal plans

For students living on campus, it is compulsory to have a dining plan. These flexible prepaid plans can be used to purchase meals on campus at Lakeside Restaurant, Papyrus Café, Pulse Café, Don's Tavern, the Coffee Cart, Bond Express, and the University Club.

Applying for on-campus accommodation

Our on-campus rooms are in high demand, so we recommend you complete your application as soon as the accommodation booking period opens.

Learn more and
view room types

Off-campus accommodation options

Rental accommodation: Options surrounding the University include houses or apartments on a single or shared basis with weekly rent varying depending on size, location, and the number of bedrooms. You will also need to budget for a security deposit (rental bond), food, electricity, telephone, internet, and cleaning. Students regularly advertise for flatmates in a variety of units, townhouses, and larger homes located in suburbs adjacent to the campus (Varsity Lakes, Robina) and further afield.

Homestay: A fully supported living experience with a local host family. Bond University's homestay program is professionally managed by the Australian Homestay Network and is recommended for all students under the age of 18 years old.

View homestay options: homestaynetwork.org

We're here to help

Bond's accommodation team can provide information relating to accommodation within close proximity to campus. For suggestions email housingsupport@bond.edu.au or to view off-campus options, please visit bond.edu.au/off-campus

Scholarships

Bond is proud to offer a generous scholarship program rewarding high-achieving students. Full and part-tuition scholarships are awarded to applicants who have demonstrated outstanding academic ability, community involvement, sporting achievements and strong leadership skills.

Vice Chancellor's Elite Scholarships

Our prestigious Vice Chancellor's Elite Scholarships are awarded each year to a small group of outstanding applicants. These students are selected on the basis of their exceptional academic achievements, proven leadership abilities and strong personal character.

Successful applicants receive full tuition remission for any undergraduate degree combination (with the exception of the Bond Medical Program). Every Vice Chancellor's Elite Scholar is also invited to participate in the Vice Chancellor's Mentoring Program where they will be teamed with a leader in their field for one-on-one professional and personal guidance.

Excellence Scholarships

Excellence Scholarships offer up to 50 per cent tuition remission for any undergraduate degree combination (excluding the Bond Medical Program) and are awarded annually to a number of outstanding applicants who have demonstrated high academic achievement, proven leadership skills and extensive community involvement.

Leadership Scholarships

Leadership Scholarships aim to recognise current Year 12 students who have outstanding leadership experience and community involvement with a 25 per cent tuition remission scholarship for any undergraduate degree combination (excluding the Bond Medical Program).

Bond University Indigenous Scholarship

Bond is strongly committed to closing the gap for Indigenous Australians. Through the generous support of corporate sponsors, alumni and community donations, we offer a number of scholarships to Aboriginal and Torres Strait Islander students who have demonstrated extracurricular involvement, leadership potential and academic achievements. These scholarships are valued at up to 50 per cent of tuition fees for any single undergraduate degree (excluding the Bond Medical Program) or 100 per cent tuition for any diploma program.

Sporting scholarships

Through key corporate partnerships, Bond is proud to offer sports scholarships to students with exceptional sporting achievements. Visit sport.bond.edu.au/programs/sport-scholarships for further details on sporting scholarships available.

How to apply

Scholarship applications can be made online via the Scholarship Application Form after you have completed and submitted a Bond University Study Application Form.

Review scholarship application opening and closing dates at bond.edu.au/scholarships.

Simply use the same login details as used for your study application and enter 'scholarship' in the keyword field on the Start an Application tab.

What scholarships are available?

Below are the details of a few key scholarships Bond University offers. We encourage you to visit our website to see a full list of the scholarships available at bond.edu.au/scholarships.

* Students applying for the Medical Program are not eligible for this scholarship.

Pathways to Bond University

If you don't meet the entry requirements for your chosen degree, Bond offers a range of pathways through Bond University College. Our pathway programs are delivered on campus by Bond University College, where you will benefit from extra hours of face-to-face teaching in a personal small class, mentored environment. Located on campus, you will have access to all the University's resources and facilities and will be welcomed as a member of the Bond community from the day you arrive.

Successful completion of a Bond University College program gives you the opportunity to gain entry to a Bond University undergraduate degree, with varying credit. The time to completion from a diploma program to a bachelor's program is essentially the same. Once you successfully complete your diploma, you will enter your bachelor's program in Semester 3*, enabling you to still graduate ahead of your peers at standard universities. Learn more at bond.edu.au/entry-to-bond/entry-requirements/domestic-entry-requirements/pathways-into-bond-domestic

* Not applicable to all bachelor level programs.

Admission pathways

Diploma Preparation Program

CRICOS course code 0101445

Duration: 4 months (1 semester)

Starting: January, May, September

The Diploma Preparation Program has been specifically designed for students to pathway into Bond University Diploma programs.

Key features

- Prepare yourself for a Bond University Higher Education Diploma program.
- Gain the academic skills required to succeed in your further studies.
- Transition into your diploma program seamlessly with our dedicated teachers and supportive environment.

Higher Education Diplomas

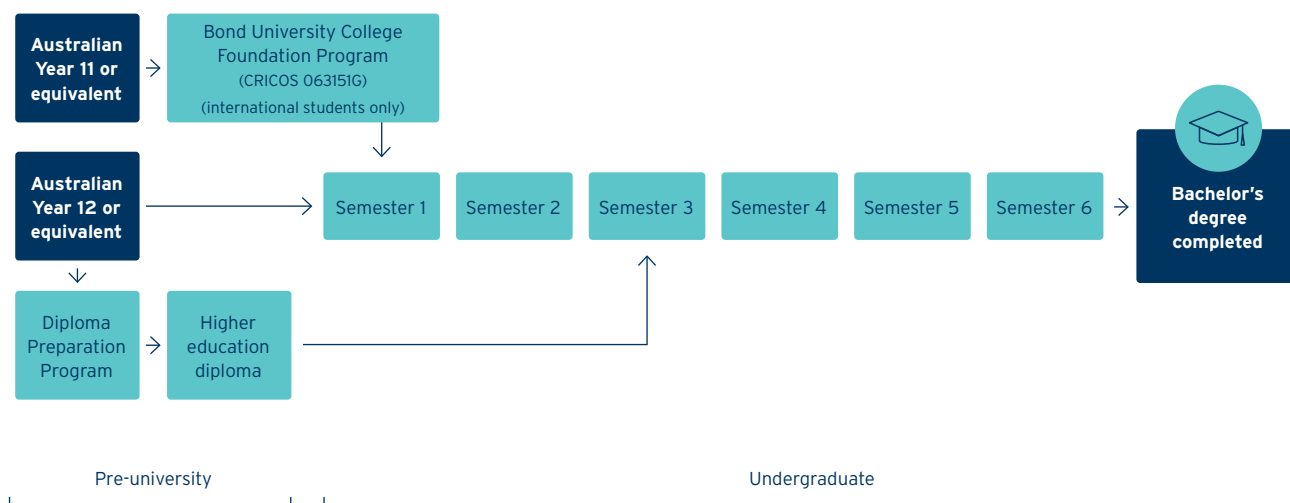

Duration: 8 months (2 semesters)

Starting: January, May, September

Our diploma level studies provide a pathway for students who do not meet the academic or English language requirements for direct entry into their chosen bachelor's degree, or who would prefer to start their university journey in a more supported environment. Successful completion of your diploma qualifies you for entry into a Bond bachelor's degree, with varying credit.

- Diploma of Arts (CRICOS 0101729)
- Diploma of Built Environment (CRICOS 098537A)
- Diploma of Business (CRICOS 078663E)
- Diploma of Creative Design (CRICOS 105412G)
[Duration: 1 year (3 semesters)]
- Diploma of Health Sciences (CRICOS 093260K)
- Diploma of Legal Studies (CRICOS 080298C)

Pathways to Bond University

The average Bond University undergraduate program can be completed in two years, but this may be longer in some areas of study.

Admission pathways

Vocational Education and Training (VET) study

Can I use a VET qualification for entry?

For 2026 admission, Bond University will continue to accept VET Certificate IV, Diploma or Advanced Diploma qualifications for entry with the following assigned ranks. Please note that the assigned selection rank is provided as a guide only. You must still meet prerequisites and any additional requirements for the program. Learn more at bond.edu.au/entry-to-bond/entry-requirements/undergraduate-admissions-criteria

VET qualification*	Assigned selection rank	Bond entry point
Completed AQF Certificate III	40	Diploma Preparation Program
Completed AQF Certificate IV	74	Diploma and Bachelor's programs
Completed AQF Diploma	78	Bachelor's programs
Completed AQF Advanced Diploma	91	Bachelor's programs

* Graded VET qualifications will be assigned a rank based on the grades attained. For more information, please speak with your Domestic Regional Manager about our Bond University College diploma pathways

For admission to Bond University from 2021 onwards, ungraded VET qualifications will no longer be accepted for direct entry into the following programs:

- Bachelor of Actuarial Science (CRICOS 083205M)
- Bachelor of Biomedical Science (CRICOS 063085B)
- Bachelor of Business Law (CRICOS 063057F)
- Bachelor of Jurisprudence (CRICOS 063078A)
- Bachelor of Laws (CRICOS 093922K)
- Bond Medical Program[^]
- Any combined program that includes a program mentioned above

Have you completed an in-school VET qualification?

If you complete a VET qualification in school and successfully complete Year 12 (with or without an ATAR), Bond will assess your VET qualification for admission. You may be required to demonstrate English language proficiency by passing the English subject with a grade of C or better, or by undertaking an English proficiency test and achieving the required scores for entry.

If you have also obtained an ATAR, then Bond University will consider the higher ranked of the two qualifications (ATAR or VET) for admission.

Prior higher education study

To have prior higher education recognised for admission into Bond University, you must have completed at least one semester of full-time undergraduate study (Australian Qualifications Framework Level 7 or above) at a recognised university.

Your application will be assessed based on the subjects you have completed or attempted to complete at another institution. Your GPA will be assessed, and you will be assigned a selection rank. For more information and the selection rank framework, please visit: bond.edu.au/entry-to-bond/entry-requirements/domestic-entry-requirements

Work and life experience

Another way to gain entry to Bond University is by demonstrating relevant work and life experience. Professional experience and / or qualifications, including employment experience, will be considered on a case-by-case basis.

Special Tertiary Admissions Test (STAT)

Sitting the STAT is intended for applicants without other university entrance qualifications and is administered by QTAC. Your STAT score will be converted to an equivalent university entry score and used in the assessment of your application. For more information, please visit: bond.edu.au/entry-to-bond/entry-requirements/undergraduate-admissions-criteria

High school completion without ATAR

Bond University considers non-ATAR students for admission into the following diploma programs:

- Diploma of Arts (CRICOS 0101729)
- Diploma of Built Environment (CRICOS 098537A)
- Diploma of Business (CRICOS 078663E)
- Diploma of Creative Design (CRICOS 105412G)

The Diploma of Health Sciences and Diploma of Legal Studies are not eligible for an entry pathway as a non-ATAR student. To be considered for non-ATAR entry, you must have:

- Completed Year 12 and obtained a Queensland Certificate of Education (QCE) or equivalent
- Received a pass mark or higher in a minimum of three General or Applied subjects (with a grade of C or better in Units 3 and 4).

For more information, please visit: bond.edu.au/entry-to-bond/entry-requirements/undergraduate-admissions-criteria

Applying for credit

If you have completed studies at another institution, or have gained relevant work experience, you may be eligible for credit towards your Bond program of study.

To apply for credit:

1. Submit your application to study at Bond University through our online application system.
2. If you intend to apply for credit, ensure that you complete the section titled 'Advanced Standing and Credit Transfer' on the online application form. Remember to submit all relevant documentation to support assessment of your credit application.
3. As part of the admission process, your application will be reviewed for any eligible transfer of credit into your chosen Bond course.

Learn more about applying for credit

[^] The Medical Program comprises two sequential degrees - the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). Applications for Medical Program must be lodged through QTAC. All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

How you will be assessed

How you will be assessed for admission to Bond will depend on your education and work history, as well as your circumstances. Remember, our friendly team is here to help you navigate entry requirements and the application process.

If you are a 2025 Year 12 student...

- If you're currently completing Year 12, you can apply direct to Bond, with early offers issued once assessed.
- If you are applying after your final results are released, you will be assessed on your high school academic results and / or rank, including ATAR, IB, NCEA or CIE.
- If you are a non-ATAR student but have received a Senior Statement, we will use your final subject results to calculate an entry rank.

If you finished school before 2021...

- You will be assessed on your high school academic results and / or rank, including ATAR, IB, NCEA or CIE.
- A résumé of work and life experience may be required. It may be possible to use your work skill level and history to allocate an entry rank.
- You can also complete the Special Tertiary Admissions Test (STAT)*, as well as any complete or incomplete prior study such as AQF, Certificate IV or higher from a recognised provider.

If you did not complete school or have no other qualifications...

There are a number of alternative means of gaining admission besides formal study.

- It may be possible to use a résumé of work and life experience, including your documented work skill level and history, to allocate an entry rank and gain admission to Bond.
- You can also complete the Special Tertiary Admissions Test (STAT)*, as well as any complete or incomplete prior study such as AQF, Certificate IV or higher from a recognised provider.
- Your past school results can also be used.

Learn more about admissions pathways

Please contact our Future Students team at bond.edu.au/future-students-team to have a conversation about admission.

* The Special Tertiary Admissions Test (STAT) will allow you to demonstrate your potential for university study. Refer to QTAC for more information.

How to apply to Bond

1 Pick your program

Deciding on a degree or program is a personal choice. It's about choosing the right program for you – your interests, your future. Remember, our Future Students team is also available to discuss your study options and answer all your questions.

bond.edu.au/search-program

2 Start your application

Applying to study at Bond is easy! Applications for most Bond programs can be lodged online at any time directly to us. Just make sure you check the entry requirements for your chosen program. You are not required to go through the Queensland Tertiary Admissions Centre (QTAC)*, and there are no fees to apply.

bond.edu.au/apply

* Applications for the Medical Program^ are only open to domestic students and must be lodged through QTAC at qtac.edu.au.

3 Receive an early offer

If you are a current Year 12 student commencing university studies in 2026, Bond will assess your application based on your high school results. You may then receive an early offer* before you receive your ATAR. Any Bond applications submitted once ATAR are released will be assessed under the program's standard entry requirements. If you are not currently a Year 12 student, your application will be assessed as per Bond's usual application process.

* Excluding Bond's Medical Program.

4 Upload the required documents

Make sure that you complete all fields in your application form including uploading required documentation.

This documentation may include academic transcripts including your Year 11 and Year 12 results at time of submission, photo identification, and any other documents required for specific programs, such as certificates or awards.

bond.edu.au/application-tips

5 Submit your application

Agree to the application declaration and click 'submit'. You'll receive an email from Bond University to confirm your application was successfully submitted.

6 Track your application progress

The application review process will normally take two weeks, provided all supporting documentation has been submitted. Our Future Students team will be in touch with you if they require any further information, so keep an eye on your email inbox. You can also track your online application on our online application service with the same login details.

7 Receive your letter of offer

As a successful applicant, you will receive an email from us offering you to officially become a Bond student. This email includes a formal Letter of Offer from Bond University and information about fee payment options and accommodation.

8 Accept your offer

You are two steps away from confirming your place at Bond! To accept your offer all you need to do is log in to our online application service and follow the instructions, complete the FEE-HELP form online or pay the required fees as listed on your offer. If you are a current Year 12 student, once you receive your ATAR results, take a photo of your results and SMS them to the Office of Future Students.

9 Get ready for Orientation

Your first introduction to university life! Orientation is the perfect time to make new friends, find your way around campus and complete your enrolment at Bond. The Orientation experience features an exciting program of social activities where you can relax and meet people, and there are lots of information hubs to help you get ready for university life. Orientation information will be sent to you in the lead up to your first semester.
