\*This schedule has been developed based on past published university academic calendars. At the time of publishing this version, the university has not yet confirmed nor published 2027 or 2028 dates so this Program Schedule is still draft, and will be confirmed when the University publishes the finalised semester dates for 2027 and 2028. Prospective students should consult with the Head of Program prior to booking vacations. \*\*In the January 2027 semester all students will complete TWO (2) of FOUR (4) professional placement internship subjects during the indicated dates (NUTR71-703 and/or NUTR71-700 and/or NUTR71-702 and/or NUTR71-701). These subjects are delivered in an individualised sequence for each student to match internship site availability and **may differ** to the example above.
